

MedInsight Payer Platform

Trusted Data for Gaining a Competitive Advantage

Due to fragmented data, quality issues, and inefficient processes, payers struggle to use data for competitive gain. The MedInsight Platform solves these issues by aggregating data, providing real-time insights, and offering a strategic edge for informed and optimized decisions.

The cloud-based platform enables payers to gain insights with the necessary context, identify hidden opportunities, and make data-driven decisions. It also offers pre-built content, customizable dashboards, and advanced graphic capabilities that are easy to access, allowing payers to unleash the true potential of their data — and confidently trace the impact of data down to their bottom line.

Payer-Focused Insights to Propel You to the Forefront

Drawing from over 20 years of experience working with payers, Milliman MedInsight understands the intricacies of payers and has developed a comprehensive solution that delivers tangible results. This approach includes:

- Data aggregation
- Data quality management
- Performance benchmarking
- Cost and utilization analysis
- Care management analysis
- Employer group reporting
- Risk management/optimization
- Population health
- Value-based care analytics
- Contract management

Expand Your Data Confidence

The MedInsight Data Confidence Model guarantees the utmost accuracy and reliability throughout your analytics journey giving you unparalleled data confidence. Here's how:

Rapid Claims Data Refreshes

Reduce turnaround times from weeks to days to stay agile and ahead of the trends.

Milliman Peer Review

Complement your workstreams with reliable data that has been thoroughly reviewed by Milliman-trained professionals.

100+ Automated Audits

Improve operational efficiencies with automated edits that ensure the highest data quality and integrity.

Store up to 600 Data Elements

Store and analyze a wealth of information according to your needs, from detailed demographics to complex utilization patterns.

60+ Stringent Data Tests

Ensure accuracy, completeness, and consistency of your data with stringent data tests made on your behalf.

Customization

Pivot to changing priorities with custom-defined fields and dimensions that enable greater flexibility.

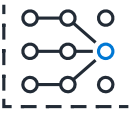

Best-in-Class Claims Benchmarking

Gain access to benchmarks that leverage Milliman Health Cost Guidelines (HCGs) and draw on vast empirical data: over 2.5 billion records and 75 million lives. These benchmarks are meticulously tailored to the specific population you analyze by incorporating factors such as age, gender, geography, benefit design, and health risk adjustment so you have accurate and current comparisons to drive better decision-making.

Cost & Utilization Analysis

The platform integrates Milliman's most advanced analytic engines, including the renowned Health Cost Guidelines (HCG) Groupier. This enables you to create population cost models, define claims service categories, and categorize utilization counts with precision. You can also drill down by plan, line of business, region, clinical population, or any defined group within your database to efficiently track utilization and analyze claim costs.

Powerful Query Tools

The Cube Browser tool empowers you to generate results from massive sets of aggregate or summary data in just seconds. With Query Express, you can delve even deeper by analyzing detailed, claim line-level data for specific populations or claims experiences at lightning-fast speeds, even when dealing with hundreds of millions of claim lines.

Storytelling Dashboards

Experience the power of data visualization with our customizable dashboards that transform complex information into stunning visuals. Seamlessly flow from one app to another and craft captivating stories that unlock hidden insights within your data.

KLAS-Ranked #1 for Analytics & Customers Service

The MedInsight Platform has been recognized as the Best in Payer Quality Analytics in their annual report for the last five years. This includes being ranked #1 in customer service, ensuring that you receive the support you need every step of the way.

Continuous Learning

Take advantage of MedInsight Learning, a comprehensive online module that is updated with each new release and serves as your go-to resource for training videos, documentation, and all the information you need to master the MedInsight Platform.
