# Mimecast Email Security Cloud Integrated

- World-class email security
- Optimized M365 protections
- Effortless, immediate deployment
- Simplified administration

Stop email attacks in their tracks

Phishing, ransomware, credential harvesting, and spam are just some of the email-based cyber threats that you need to defend against. More than 90% of cyberattacks start with email[1], and many are designed to evade Microsoft's defenses. Optimize Microsoft 365 protection in minutes with AI-powered detection from Mimecast — the leader in email security for 20 years.

Mimecast + M365 = unparalleled email protection

Mimecast Email Security Cloud Integrated is an Integrated Cloud Email Security solution that enhances and augments M365's email security protections, layering on AI-powered, best-in-class detection capabilities to block the most sophisticated email attacks. You get a solution with simplified administration that's optimized out of the box. Your organization gets world-class protection for the top attack vector — email.

Key Benefits:

- Complete protection for M365

- Immediate deployment

- AI-powered detection, world-class efficacy

- Simplified administration

- Optimized protections out of the box

- Real-time threat intelligence on blocked threats

- One-click remediation

- Removal of historic email threats

- AI-powered email warning banners

- Extensibility through rich APIs

The Mimecast Difference
Why Compromise?

- World-class email security efficacy
- 42K+ Email Security customers globally
- AI-powered detection
