### Enterprise SaaS and Cloud Management platform

**Power to Manage Enterprise SaaS** 

## S Continuous Cost Optimization

- ✓ Identifying optimization opportunities
- ✓ Understanding the impact of choices
- ✓ Cloud bill shock

### Allocating & Recovering Costs

- ✓ Selecting a chargeback approach
- ✓ Communicating costs in business terms
- ✓ Accidental charges to the card

### Existing challenges

#### IT Planning & Budgeting

- ✓ Managing the budget effectively
- Driving stakeholder accountability
- Improving budget transparency
- Denial of service due to missing payments

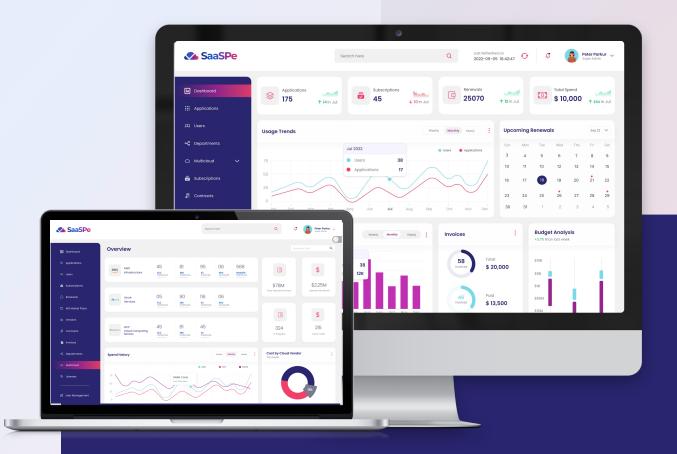

#### Investment Planning

- Standardizing business case intake processes
- ✓ Documenting life-cycle costs of projects
- ✓ Ensuring business value realization

### SaaSPe overview

- ✓ 360° View of the SAAS spend occurred across all departments
- Set up alerts to make on time contract renewals and avoid service interruption
- Correlate cloud spend to business value to make cloud investment decisions with confidence
- ✓ Rely on the SaaSPe Optimize to control the cloud spend
- Understand license types and utilization to forecast spend, manage active contracts, and mitigate risk
- Avoid subscribing similar SAAS applications using the SaaSPe insights
- Multicloud provides detailed view on the cloud resources and provides optimization techniques to control cloud spend

"IT can no longer leave the analysis, management, and optimization of technology management costs to spreadsheets and uncoordinated processes."

**SaaSPe** 

### **SaaSPe Features**

#### SaaS Portfolio Management

- Seamless onboarding of applications, users, departments and projects using workflows
- ✓ Track SaaS consumption
- ✓ Manage Licenses & Utilization
- Optimize SaaS portfolio using various techniques

#### **SSO Integration**

 Integration to various identity and access management platforms like Azure AD

- ✓ Multi-cloud foot print
- Configure budgets to better forecast the cloud expenses and improve the financial planning
- Optimize cloud spend using the recommendations engine

#### Notification Management

 Notify users immediately by email on contract renewals, budget threshold and cloud optimization

#### Contract Lifecycle Management

- Seamlessly onboard contracts in a quick and automated manner
- ✓ Manage contracts efficiently
- Automate e-signature process and reduce the overall turnaround-time

#### **AI Enabled SaaS Advisor**

- OpenAl based intelligent app to answer wide range of questions and prompts with high accuracy
- Quick access to data where human expertise is limited

### SaaSPe Multicloud

#### **Overview**

**SaaSPe Multicloud** offering is designed to help you analyze, plan, and track spend on the cloud resources across various providers like

aws

- ✓ Track the top expensive resources across the clouds
- Overview of the spend history to get an idea on the cloud spend
- ✓ Bifurcation of cost by cloud provider
- ✓ Consolidated spend across the cloud

### SaaSPe Multicloud

#### **Optimize & email alerts**

- SaaSPe optimize is designed to provide recommendations in various categories like cost, security, availability, performance that helps to balance risk and cost
- Educate future planning and prioritization using the ROI shown under the cost savings
- Multidimensional view of various optimization categories across all the cloud providers
- Send email notifications on the recommendations to the concerned team for prompt actions

**SaaSPe** 

### SaaSPe **Multicloud**

#### **Budget & forecasting**

- ✓ Accurately track the cloud consumption and ensure it is under control using budget configuration
- ✓ Predict the future spend using the forecast option
