

# Free Active Directory Audit and Gap Analysis

**Optimize Your AD Environment: Enhancing Security, Performance & Upgrade Readiness**

Is your **Active Directory (AD)** environment secure, optimized, and ready for future upgrades? Take advantage of our **FREE Active Directory Audit & Gap Analysis** to identify vulnerabilities and enhance security.

## Overview

Get a **FREE 2-hour expert-led assessment**, designed to assess the **Security, Health & Performance, and Upgrade Readiness** of your Active Directory environment. After the workshop, we will analyze the captured details and provide you a **Gap Analysis and Recommendation report** to help you address vulnerabilities effectively.

## Scope of the Workshop

- ✓ **2-Hour Assessment:** Evaluate Active Directory Security, Performance, and Upgrade readiness.
- ✓ **Gap Analysis & Recommendations:** Get a clear roadmap to fix gaps and optimize performance.
- ✓ **Report Walkthrough:** Expert guidance to prioritize actions for a secure, efficient AD.

## Take the First Step Towards a Secure Active Directory

Cyber threats are evolving—don't let your **Active Directory** be the weak link. Our assessment helps you **identify risks before attackers do!**
