

# Rapid Windows 365 Experience Lab

## 1-Day Implementation

### Try now! with Rapid Windows 365 Experience Lab

In addition, you will receive Azure Virtual Network setup, and configuration service of Azure AD, Endpoint Manager, Defender for Endpoint and Data Loss Prevention (DLP).

Experience a convenient and cost-effective solution for organizations that need to provide their employees with access to a full Windows environment and a range of applications from any device. We offer you a rapid implementation. After 1-day implementation, you will receive a cloud-based virtual desktop service that allows you to access a fully-functional Windows operating system and a range of applications from any device with an internet connection.
