

Hybrid Meetings: 2 Day Workshop

Flexible work is here to stay: over 80% of managers say they expect more flexible work from home policies, and more than 70% of employees say they expect to take advantage of them.*

Building experiences to help everyone thrive in this new world of hybrid work is key and can be accelerated by organizations' rapid move to the cloud. In the current environment, there is a greater need to deploy solutions and services that will bring people together in a virtual setting. With Microsoft Hybrid Teams, you can help people stay connected, collaborate seamlessly, and simplify work, in a secure and compliant way – all in one place.

Microsoft Teams Rooms bridge the gap between in-person and remote attendees, so everyone can be seen, heard, and fully participate – whether they are working in small, medium or large meeting spaces.

COLCOM has deep Technical knowledge and expertise on Microsoft Teams Rooms; with certified professionals for technical sales. Certified with MS 700 to ensure efficient and effective collaboration and communication in a Microsoft 365 environment, the COLCOM team addresses the challenge around lack of post-sale support with Microsoft Teams Rooms.

This two-day remote workshop is a modular engagement designed to showcase hybrid meetings through 'art of the possible' immersive experiences, use case design, and deep dive planning to deploy and adopt Microsoft Teams Meetings and Microsoft Teams Rooms.
