

The Copilot Accelerator Program

Increase productivity and deliver a great ROI

What is your ROI from Microsoft Copilot Today?

The Copilot Accelerator program is designed for businesses who can't answer that question, yet. We help you identify the highest value use-cases in your business, empower your users, and measure the impact so you know the ROI.

From Strategy to Impact

Without knowing who to target, how to protect data, how to train users, how to build agents and how to measure the impact....there will be no ROI and your Gen AI program will stall, or fail. However, there is a path to success by joining the Copilot Accelerator program to accelerate this exciting journey.

5 Steps to Success

1. **Business Analysis** – Deploy M365 Copilot to the right people
2. **Data readiness** – Protect data from over-sharing
3. **User empowerment** – Build skills and habits to drive productivity
4. **Build agents and APIs** – Extend Copilot with autonomous agents and APIs
5. **Leadership & governance** – Measure and report on the ROI

Unlock with Copilot Accelerator

Use-cases Identified for M365 Copilot (paid and free)

Policies and Controls protect your data and prevent over-sharing
