Data mobility is helping to save more lives…

mobile mentor

'But I don't want you accessing my personal data'

We only manage work-related apps & data

Get you back up and running in 1 hour

Use your own device

A better user experience

mobile mentor

We understand that it makes your life harder
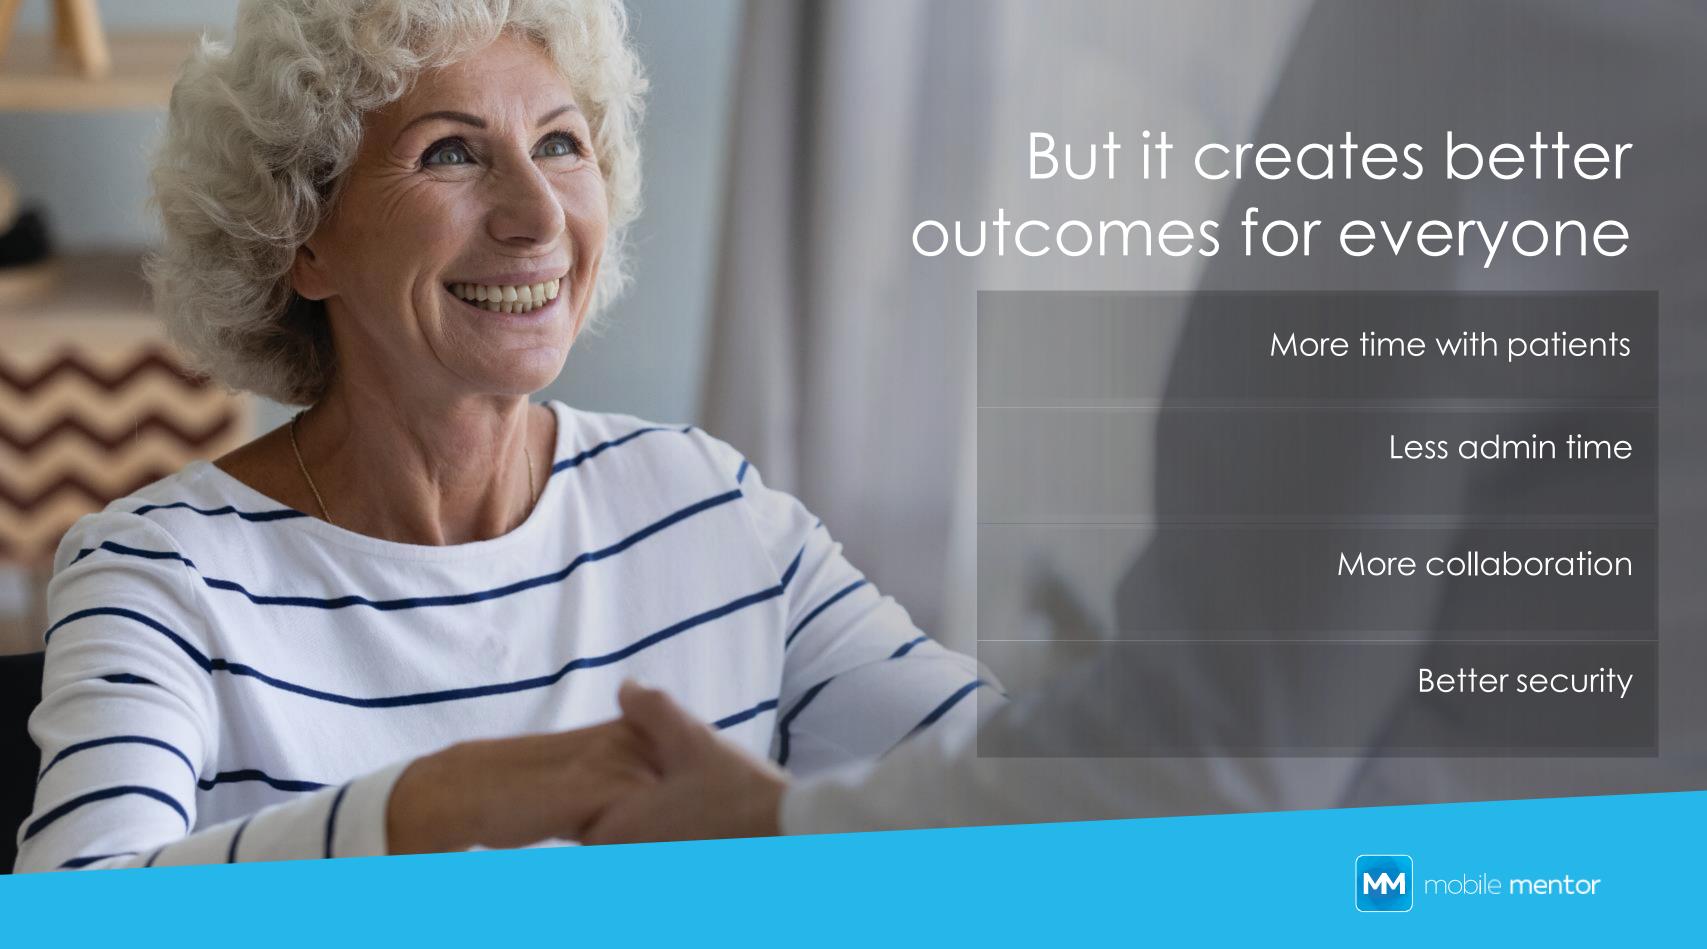

Moving to the cloud creates security issues

HIPAA compliance at risk

Cost blowouts

Maintaining workforce productivity

mobile mentor

But it creates better outcomes for everyone

More time with patients

Less admin time

More collaboration

Better security

mobile mentor

Let's take a look at how it works

mobile mentor

Are you making the most of your Microsoft 365?

Now let us show you how to get more out of your license.

Move to a Modern Workplace faster, with 365 Accelerator.

Endpoint Security

Security is freedom. Remotely manage laptops and smartphones for your mobile workforce.

Employee Experience

Free your staff to get on with the job. Enable them to collaborate and communicate while working anywhere.

mobile mentor

Discovery
Interviews with IT and employees

Modelling
Input findings into proprietary model

Validating
Share and refine results

Presenting
Where it all comes together

mobile mentor

One: Assessment and benchmarking

We assess your current security processes and employee experience against best practices.

We assess **endpoint security** from 5 different angles: security policies, identity, device management, data protection and governance

Endpoint security - benchmark comparison

Level	1	2	3	4	5
POLICIES					
IDENTITY					
DEVICES					
DATA					
GOVERNANCE					

Employee experience - benchmark comparison

| Level	1	2	3	4	5
ONBOARDING					
ACCESS					
SUPPORT					
EMPOWERMENT					
INNOVATION					

We interview your people to understand **employee experience** through the lens of: onboarding, systems access, technical support, empowerment and innovation.

What they're saying about the Modern Workplace

THE UNIVERSITY OF TENNESSEE MEDICAL CENTER

"It was very well presented, thoroughly researched and identifies exactly what we need to do at UTMC."

John S. Jeffries - Information Security Director
University of Tennessee Medical Center

Alive Hospice

"This is a huge breakthrough for us, we are thrilled and will now migrate 1,000 devices to Modern Management with Intune."

Kyle Rucker
Director of IT
Alive Hospice

Cumberland consulting group

"Very thorough, very impressive, and very helpful. I like that you summed it all up for us and it is very clear what our next steps are. Excellent bang for buck."

Mike Kinkade - Senior Security Manager
Cumberland Consulting Group

Meet the core team

Denis O'Shea - Founder & CEO Mobile Mentor Inc

Denis founded Mobile Mentor in 2004 and has nurtured the growth and development of the company to become a trusted provider of mobility solutions for large enterprises and government entities. Denis is deeply passionate about the impact of mobile technology in the healthcare industry. Denis considers his life's work is to leverage mobile technology to make a positive impact, at scale. In 2017 Denis and his family relocated to Nashville TN to set-up Mobile Mentor USA in close proximity to the largest and most progressive healthcare providers in the world. Prior to Mobile Mentor Denis spent 15 years in senior positions with Nokia in Finland, Sweden, New Zealand and Switzerland and he has established mobile businesses in Australia, Brazil and China.

Denis is a regular speaker at conferences and a strong advocate for the adoption of mobile technology to save time, money and lives.

Daniil Michine - Technical Architect

Daniil has been working in information technology for over 10 years across a number of different industries. At Mobile Mentor, He is a subject matter expert (SME) on Citrix XenMobile and has been involved in most of the sizable deployments of XenMobile in the country. Daniil was the tech lead for the biggest deployment of XenMobile in APAC region.
He is very passionate about new technology, solving technological puzzles and architecting solutions.

Shane Sloan - Solutions Architect

Shane Sloan is our Solutions Architect and works with clients to identify the appropriate technologies, interpret business needs, and design maintainable solutions for development and security resources to execute. Shane holds a Masters in Business Administration from Vanderbilt University. Prior to joining Mobile Mentor, Shane spent 9 years at AIG's Life Insurance division focused on development, automation engineering and quality assurance leadership. In 2007, Shane obtained a Bachelor's of Science in Information Technology from Colorado Technical University. Prior to undergrad, Shane had a distinguished career with the US Army as a Blackhawk helicopter crew chief.
