

# Modern Work Assessment

## Has your company embraced “Modern Work?”

2020 accelerated innovation for many companies with employees working remotely. How did this impact the balance between security and employee experience?

**Let's find out with a Modern Work Assessment.**

## Our Modern Work Assessment delivers three outcomes:

- ✓ Objective assessment of endpoint security & employee experience
- ✓ Understand areas of strength and weakness relative to best practice
- ✓ Obtain a clear set of priorities to share with business stakeholders

## The Modern Work Assessment is right for you if...

Security is getting in the way of productivity for remote employees

You believe people will be working remotely for an extended period

You need a clear set of security and technology priorities

“ **Mobile Mentor is very insightful in asking the right questions. They have an energetic group of people, and their tech knowledge is profound.**
