

# EXCEPTIONAL/SIMPLE TO USE LEARNING MANAGING SYSTEM

## Log into the system with no email

Don't worry about remembering passwords - use a particularly safe two-factor login method on your mobile phone. It will log you in anytime, anywhere, both while learning and administering the system.

## Learn on your smartphone too

Access educational content from a location convenient for you. Log in to the educational system from any device. Provide the opportunity for distance learning.

## Intuitive control technologies

You want the educational system to match your company's brand - we will be happy to launch a training environment tailored to you within a week. If you want to start learning tomorrow, we will offer a secure access to our already created environments.

## Why Talentator?

In order to adapt to change, become faster and better manage the distance learning and teaching process, organizations often face a difficult decision - which technology to choose and where to start? We have set ourselves the goal of being the most reliable digital education partners for both business and public sector companies. When choosing an educational system, it is very important to evaluate things that are difficult to notice at first glance, such as: simple login, intuitive control for both users and administrators. We want to be your digital education partners and help you grow while empowering education together.

### Experience

We have experience in installing and regularly maintaining various educational systems for both organizations in Lithuania and abroad, taking into account the key and exceptional functionalities of each system, important or less important, in response to the needs of specific organizations.

### Professional team

We have people in our team who not only have a good knowledge of the technologies, but also of the change and project management. These are key areas of expertise that help our clients enable digital content and form in their organizations and help your employees fall in love with digital education.

### Flexibility

We care for the client's goals, not for the educational system, so we can offer the system most suitable for you and help to adapt it, as well as train employees.

### Trust

We are the silver Microsoft technology partners and have empowered digital education for more than 30 of our customers.

# EXCEPTIONAL/SIMPLE TO USE LEARNING MANAGEMENT SYSTEM

**Microsoft Community Training** - No license fee, pay only for the Azure resources used by the educational system, don't worry about the number of users, devote all your time to training and learning. Start learning tomorrow!

## System launching

### 1-2 weeks

In your or our environment:

- Technical launching of the system,
- Design adaptation,
- Training for education administrator.

## User training

### 2 hour distance education session:

- Presentation of scenarios of use,
- Different user groups, development of tasks, content upload,
- Reports.

## Development of training courses

### Part 3 (additionally):

- Course upload,
- Task generation,
- User group management.

## Easy to administer

It has never been so easy to administer a learning system. Involve more experts in the content development

Create educational content faster. Learn to use the system in 30 min.

## Intuitive to use

The learning system is based on the best distance education processes and focuses on an easy and smooth user experience.

Teaching how to use the system does not require additional skills or knowledge - it is 100% intuitive.

## System installation

When installing the system it is important to answer the following questions:

- Will the system be installed on your Microsoft Azure cloud infrastructure?
- If you are not able to host it on your infrastructure, we can provide ours (on a rental basis) and grant you administrative rights.

*Empower growth*
