Moresi.com is the unique partner for digital business, able to lead companies in a world where digital data is a primary value and essential to face the challenges of the market. Moresi.com, due to its long-standing experience in the sector and its prestigious partnerships with global leaders of the market, offers companies strategic consulting, design and management services in the IT field.

"Boost your migration to Azure" is a complete solution to speed your journey to the cloud predicting duration, feasibility and costs based on a careful analysis of running workloads.

WHY TO RELY MORESI.COM FOR
AZURE MIGRATION

All-in-one solution
↓

The "Boost your migration to Azure" package developed by Moresi.com, direct partner Microsoft Tier-1 level, allows you to easily, quickly and safely migrate your company workload in a full-cloud or hybrid scenario to Azure, the cloud computing platform created by Microsoft for building, testing, deploying, and managing applications and services through Microsoft-managed data centers.

Security first
↓

Data security during the assessment and the migration is a major concern for most companies. "Boost your migration to Azure" by Moresi.com is designed to guarantee you maximum security at every step: all communications with your Azure 365 tenant is always fully encrypted, and only you are responsible for your data. You choose what to include in the assessment and we configure tools and portals to protect data involved in the process and to display results only to allowed people.

Fixed Price
↓

We can involve in the assessment multiple consultants with different skills based on the types of workloads to be analyzed. We offer a fixed price to complete the assessment regardless of the items included in the evaluation. We design and build tailor-made solutions with a view to constant and fruitful collaboration.

Moresi.com will execute an assessment that can help you to predict effort, feasibility and cost to migrate workloads to Azure based on real customer's data.

THE ASSESSMENT
INCLUDES

01 **Workloads supportability on Azure**

02 **Detailed plan of migration**

03 **Migration tools**

04 **Predicted downtime**

05 **Azure cost estimate**

06 **Workloads optimization**
