

Microsoft 365 Migration

Facilitates collaboration relying on the power of M365 multiple tools.

CORRIERE DEL TICINO

Media Production company / Muzzano (CH)

100+ employees

Corriere del Ticino Group is the first multimedia group in Italian Switzerland, which includes Corriere del Ticino, Radio3i, Teleticino and Ticinonews.ch

“For our group operating in the media sector, it was important to rely on a platform that could guarantee us full operation in any place and situation, but in complete safety. That’s why we chose Microsoft and the Moresi.com solution.”

Paolo Allemann, ICT Manager of Corriere del Ticino group.

THE CHALLENGE

In Corriere del Ticino IT infrastructure there were various email management systems, the time was ripe for integration into a single system. This is why they chose Microsoft 365, but they needed to manage a quick and secure migration.

THE SOLUTION

The Microsoft 365 Migration package developed by Moresi.com, allowed CdT to easily, quickly and safely migrate its company mailbox (mail, contact address book, calendar, etc.) to Microsoft 365, the Microsoft Suite of cloud-based services. The package also includes the activation of Teams, the Microsoft collaboration software, and other possible Office 365 applications.

THE BENEFITS

Microsoft 365 protects sensitive data, helping the IT department to maintain control over its environment as required by the GDPR. Freeing from various routine checks and nightly server maintenance, in favor of greater management of users, content and security. In addition, Microsoft 365 gave to CdT a multitude of added tools, for messaging, management of activities, rapid sharing of documents and full-field operations.
