

Microsoft 365 Migration

An all-in-one solution for secure migration to Microsoft 365.

Gold Small and Midmarket Cloud Solutions
Gold Cloud Productivity
Gold Cloud Platform
Silver Collaboration and Content
Silver Datacenter

The Secure 365 Migration package developed by Moresi.com allows you to quickly and safely migrate your corporate mailbox (mail, contact list, calendar, etc.) to Office 365, the Microsoft Suite of services based on Cloud.

The package also includes the activation of Teams, the Microsoft collaboration software, and any other Office 365 applications.

WHY CHOOSING SECURE 365 MIGRATION?

Safety first.

The migration takes place via a direct and secure connection to Office 365 and you are the only one responsible for your data. At the end of the migration, your data will be protected thanks to the potential offered by the Microsoft Enterprise Mobility + SecuritySuite.

A single identity to access anywhere.

With identity synchronization, you can access your applications hosted on the Cloud or in your network with a single identity based on Active Directory or Azure Active Directory.

No project costs.

We take care of the management of the entire migration process on behalf of the customer. Our migration package provides a price per user, so whatever the size of your company, you won't have to bear too high initial project costs.

WHAT DOES SECURE 365 MIGRATION INCLUDE?

01 Mail migration

Whether your corporate mailbox is on an Exchange Legacy or more recent Exchange, such as Exchange 2019, you can migrate all mailbox data to the Cloud.

02 Teams activation

Secure 365 Migration of Moresi.com includes the activation of Microsoft Teams, the collaboration platform that allows you to manage internal communication effectively and productively through a single tool.

03 Device Management

Secure 365 Migration also includes the secure management of the ecosystem of iOS, Android, Windows, and macOS devices used by your collaborators.
