Moresi.com is your unique partner for digital business, able to lead companies in a world where digital data is a primary value and essential to face the challenges of the market.

Moresi.com, due to its long-standing experience in the sector and its prestigious partnerships with global leaders of the market, offers companies strategic consulting, design, and management services in the IT field.

"Modern Workplace" is a complete solution to help companies drive the adoption of a secure user collaboration environment based on Microsoft 365 technologies and built upon the reliable Microsoft ACM Framework.

WHY TO RELY MORESI.COM
FOR CREATE YOUR MODERN
WORKPLACE.

01 Built upon ACM Framework

Our Modern Workplace adoption is built upon the well-known and reliable Microsoft Adoption and Change Management (ACM) Framework. ACM helps organizations digest technology changes introduced with Microsoft 365, guiding teams in acquiring the skills, knowledge, and behaviors essential within a modern digital workplace. ACM can help your team navigate the largest barrier in adoption - resistance to change. More than 50% of the factors leading to change resistance can be mitigated through a well-planned Adoption and Change Management process.

02 Tailored on your company needs

Depending on the size and complexity of your organization, we can drive you through the adoption of a Modern Workplace environment by turning on / off specific Microsoft 365 technologies that enable employees to work from the office or remote, in both ways within a secure perimeter. Our Modern Workplace adoption is based on Microsoft Teams and Microsoft Viva, as well as all those Microsoft 365 technologies that are designed to be user-centered.

03 Fixed Price

Depending on the adoption depth level and impact, we can involve in the assessment multiple consultants with specific skills to be more effective and performing. We offer a fixed price to complete the assessment regardless of the items included in the evaluation. We design and build tailor-made solutions with a view to a constant and fruitful collaboration.
