

# SOLUTIONASSESSMENT

Cloud Migration Assessment by Motifworks and Microsoft

Accelerate your cloud transformation strategy with Solution Assessment

## ANSWER CRITICAL QUESTIONS WITH AUTHORITY

Whether a company has invested in some form of cloud technology or is considering their move to the cloud, IT needs to answer difficult questions like:

- How can cloud benefit your business?
- Which applications should you migrate to the cloud first?
- What will be the TCO in the Azure cloud?
- How can we simplify the application portfolio to cut cost and waste?

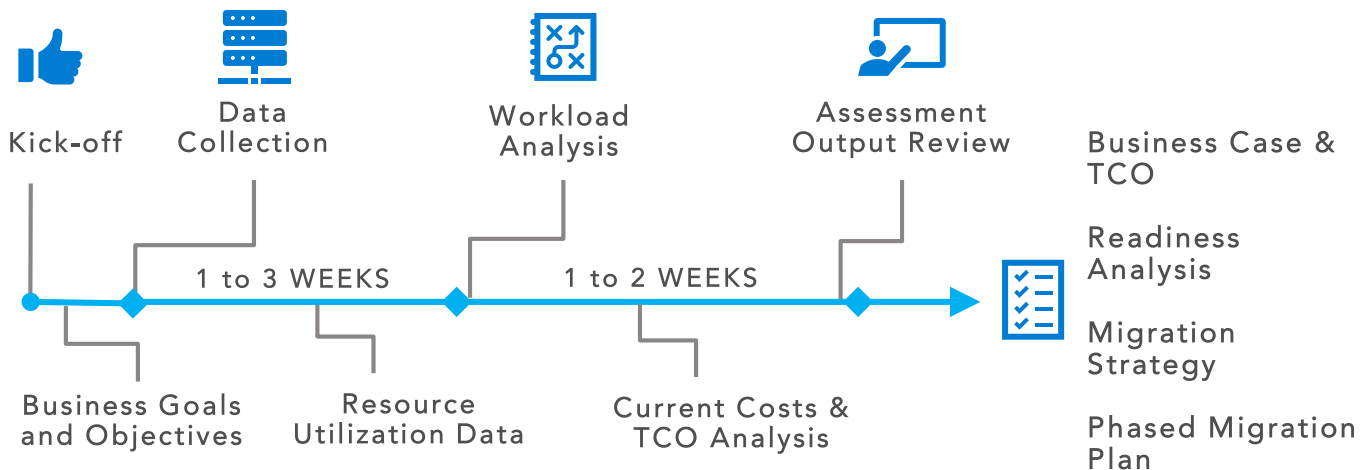

# 37%

The average level of achievable savings across multiple clients

*Based on AHUB and 3YR Reserved pricing*

## INTRODUCING SOLUTION ASSESSMENT

Motifworks and Microsoft Cloud Economics Team have developed the Solution Assessment program to support customers as they plan to migrate datacenters and applications from on-premise infrastructure onto the Azure Cloud. Solution Assessment empowers you to address these questions based on hard data, analytics, and best-practice benchmarks.

**TIME** 4-6 weeks  
from project kick off to the delivery of the migration plan

**COST** RISK-FREE  
Risk free program co-funded by Microsoft and Motifworks

EXECUTIVE SUMMARY

Created By: 

CURRENT INFRASTRUCTURE: 570 Total Servers

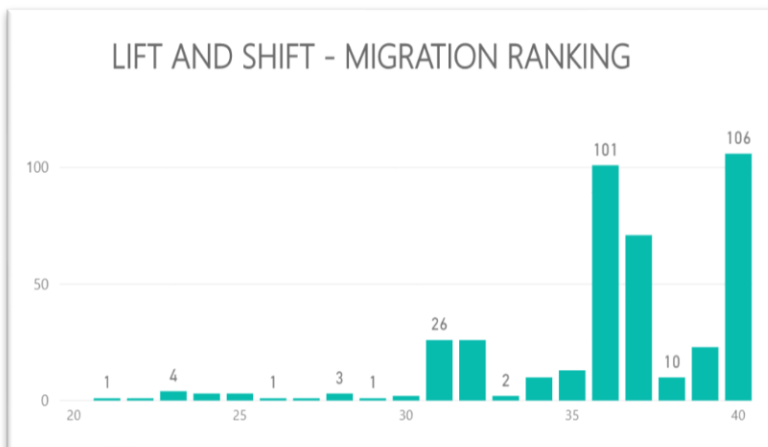

COMPARE OPTIONS: ENVIRONMENT TYPE (Dev, NA, PROD, Test), AZURE CONTRACT (PAYG, 3YR RES, 1YR RES), LICENSING MODEL (AHUB, Azure)

LIFT AND SHIFT			AZURE COST	
COMPATIBLE	DUPLICATE IN AZURE	RETIRE	5 YEAR COST SAVINGS	TOTAL COST 5YR
398	7	3	50.31%	4.82M
REQUIRES REMEDIATION	REMAIN ON-PREMISE		Azure Contract	Licensing Model
3	70		3YR RES	AHUB

## BUSINESS CASE ANALYSIS

An actionable roadmap along with specific financial metrics including total cost of ownership and return on investment based on comparisons with your current costs to evaluate & identify the long term gains.

<https://ptdrv.linkedin.com/0bs8s2c>

## READINESS ANALYSIS

Grading and segmenting of your servers using an intelligent combination of resource characteristics (sizing, utilization, criticality, health, technical obsolescence). A robust analysis of your workloads helps you identify ready candidates for Azure and can help you gain an understanding of the viability, operational cost changes, and migration impact.

APPLICATION

Active Directory Certific...	Citrix XenApp	IdentityConnect	Orchestrator	System Center Virtual M...
Active Directory Domain...	ClusterSeven Services	Impact 360	Print Services	T
AmericomTechVXTracker	CommVault	Ipswitch Analytics Server	Prophix 11	Tableau Services
Aspect	CommVault Server	LogRhythm System Mo...	Quandis	Team Foundation Server
Avaya Contact Center	Custom App	LogRhythm System Mo...	RDS	TeleVoice CCT Service
AVST CX Services	Dell OpenManage Syste...	Lync Server Application ...	RightFax Product Suite	TITUS Enterprise Mana
Bizagi Standard Server	DFS Replication	Microsoft Azure AD Con...	Riva Sync	TRECS
BlackBerry Affinity Man...	Director Client	Microsoft Azure Log Inte...	SCCM	T-Recs

SERVER COUNT	SERVER NAME	Server Role
570	AZ6499WDFS.D300B.Happy.COM	File Server
	AZ5WTRANS.D300B.Happy.COM	IT Utility
	AZUREADCONNECT.D300B.Happy.COM	Application Server
	BACKUP08.D300B.Happy.COM	Not Known
	BBSQL2017.D300B.Happy.COM	Database Server
	BBUEM2017.D300B.Happy.COM	Domain Services

MONTHLY COSTS: 193.52K

## PHASED MIGRATION PLAN

We create a phased cloud migration plan with a list of recommended candidate workloads. Working with you we prioritize which of these workloads will help you realize the value you want to gain from cloud computing based on cost and difficulty.

# AZURESMART

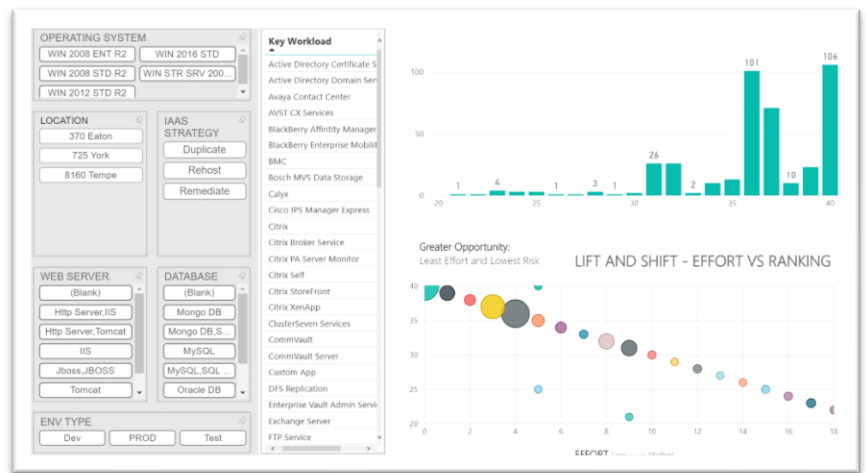

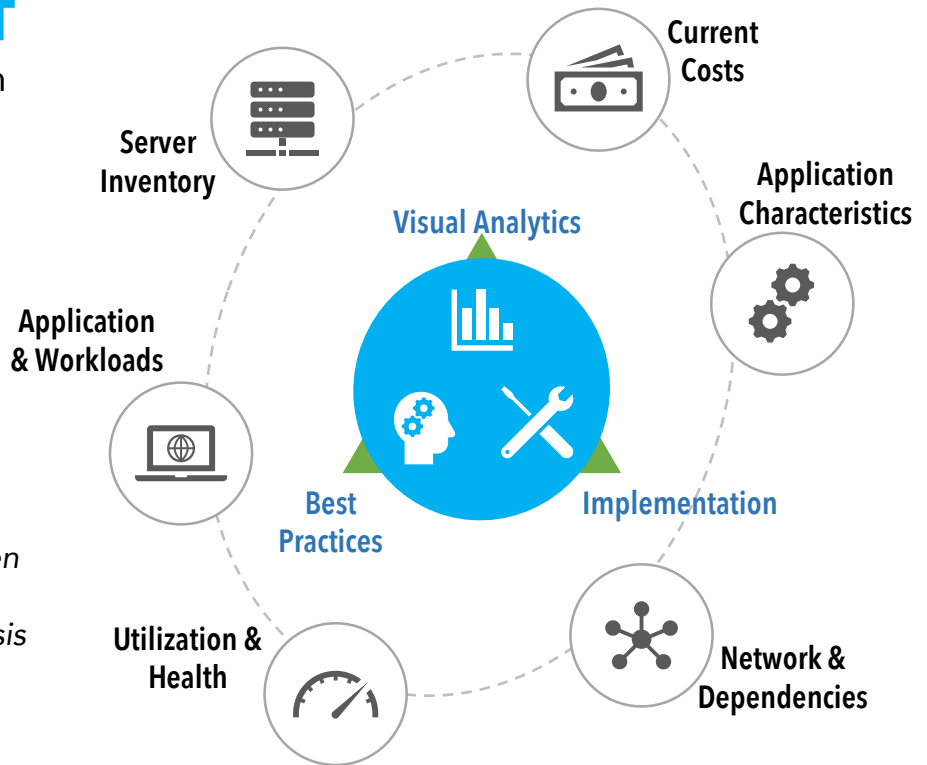

Elevate your Cloud Adoption

The Motifworks AzureSmart Platform and delivery services provide rapid IT portfolio assessment and profiling, as well as migration acceleration at enterprise scale

AzureSmart is a groundbreaking solution that combines our proven cloud assessment methodology with a stunningly graphical analysis and decision-making tool. It empowers you to gain deep insights of your server inventory, applications and workloads to get transformational initiatives moving ahead at full speed.

Interactive visualizations enable you to view and analyze your IT portfolio from multiple dimensions.

<https://ptdrv.linkedin.com/Obs8s2c>

Motifworks end-to-end AzureSmart offering encompasses the cloud migration assessment, architecture design, migration, provisioning, and orchestration. We can combine the Solution Assessment offering with other Microsoft programs, which can be utilized as standalone entities or as a single, cohesive offering:
