

SPEAK TO THE WORLD MOZZAIK TRANSLATOR

AGENDA

1

Automatic page translation

2

Instant page translation

3

Architecture and security

**65% of consumers
prefer content in their
own language, even of
average quality.**

*External study “Can't read, won't buy” by CSA Research.

Translate with SharePoint

What allows SharePoint

SharePoint lets you manage the languages of your content :

- Create **pages** and **articles** in the **different language** versions configured
- Automatically redirect users **to content in their language** or the default language
- **Select translators** and **notify** them when content needs to be translated
- A wide choice of 50+ languages

The challenges encountered

An unintuitive experience

Page versioning via SharePoint interface

Time-consuming and tedious

No machine translation or assistance,
with careful attention to layout

Content Translation

Instant Translation

Developed by Mozzaik365

Translate safely and reliably directly in your Digital Workplace :

Instantaneous

Benefit from immediate translations with SharePoint's rich language menu

Confidential

Protect your company's information, no data is saved

100+ languages

Offer your employees an inclusive experience in their preferred language

The screenshot displays a SharePoint page titled 'Test Multilingue'. The page features a navigation bar with options like 'Home', 'Documents', 'Pages', 'Site contents', 'Employee Directory', and 'Edit'. A search bar is visible at the top. The main content area has a header with the text 'Rationaliser la communication mondiale : la puissance de la traduction automatique'. Below this, there is a sub-header with the same text. The page also includes an 'Introduction' section with text in French. A small illustration of a person interacting with a large clock is visible in the lower part of the page. The language menu is set to 'French'.

CONTENT TRANSLATION

Developed by Mozzaik365

Automatic Translation
