

Undertake Digital transformation with Cyber confidence

Mphasis Cyber Defense - ZeroTrust

Mphasis applies next-generation technology to help enterprises transform businesses globally. Customer centricity is foundational to Mphasis and is reflected in the Mphasis' Front2Back™ Transformation approach. Front2Back™ uses the exponential power of cloud and cognitive to provide hyper-personalized (C=X2C2™=1) digital experience to clients and their end customers. Mphasis' Service Transformation approach helps 'shrink the core' through the application of digital technologies across legacy environments within an enterprise, enabling businesses to stay ahead in a changing world. Mphasis' core reference architectures and tools, speed and innovation with domain expertise and specialization are key to building strong relationships with marquee clients.

See what customers are saying:

"Achieve 35% or more savings in effort & cost through security tool rationalization, Improve security posture and visibility through native security tools that integrate seamlessly with enterprise systems. Be future ready for a hybrid future."

WHAT WE OFFER

Mphasis believes every connected organization, adopting cloud and undergoing digital transformation is facing significantly elevated levels of Cybersecurity threats. Traditional approaches to security is grossly insufficient to address the Cybersecurity concerns and give the business necessary Cyber confidence.

Mphasis recommends ZeroTrust as a future ready Cyber defense strategy.

Mphasis ZeroTrust assessment service looks at your current Cyber security posture across your Azure and Microsoft 365 stack in line with ZeroTrust best practices and advice you on how to adopt ZeroTrust in the least disruptive, agile and most efficient way.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
