About us

What we do ?

We analyze the needs, implement and train. We provide technical and substantive support. Our goal is to improve companies' business processes in the area of IT systems.

Thanks to Microsoft 365, we take the work of companies and local governments to a completely different level of efficiency and security.

We provide a number of trainings as well as technical and substantive support at every stage of using our services.

About service

Microsoft 365 migration report are a set of industry standard best practices that incorporate proven strategies for managing and optimizing an organization's IT assets.
With customers continually looking to streamline operations, increase productivity, and control costs, there are more ways than ever to identify new workloads and services that will support their strategic objectives and grow your business.

Execution proces

Day 1: **Assess and discover**

We analyze the client's IT environment in terms of migration and possible problems with the transition to the cloud.

Day 2: **Plan and decide**

We define the migration plan and what elements are priority. We identify processes that can be improved.

Day 3 and 4: **Migrate**

We develop a migration plan with a cost analysis

Day 5: **Optimize**

We help clients check the progress of migration and indicate which elements need to be improved.

Summary

All stages of the analysis of migration to the cloud and their summary are included in a report specially prepared for the client.
