Unlock the Power of the Cloud with Azure Assessment and Migration Services

Are you ready to take your business to the cloud, but unsure where to start? MSRcosmos's Azure Assessment and Migration Services provide a seamless, strategic approach to moving your applications, workloads, and data to Microsoft Azure. Whether you're migrating from on-premises systems, legacy platforms, or another cloud provider, we've got you covered.

We offer a comprehensive suite of services that help businesses streamline their transition to Azure while optimizing for security, cost, and performance. Our team of Azure experts works closely with your team to assess, plan, and execute a successful migration to the cloud, ensuring minimal downtime and maximum return on investment.

Why Choose Our Azure Assessment and Migration Services?

Tailored Azure Migration Strategy

We assess your current environment, needs, and goals to create a customized migration strategy aligned with your business objectives.

Comprehensive Pre-Migration Assessment

We help you identify dependencies, risks, and cost implications before moving to Azure. We ensure your migration plan is built on a solid foundation.

Cost Optimization

Our experts ensure that your Azure deployment is optimized for cost efficiency, helping you to achieve the best value for your cloud spend.

### Minimized Downtime & Business Disruption

With our proven methodology, we migrate your workloads with minimal disruption, ensuring business continuity during the process.

Security & Compliance

We prioritize security at every stage, ensuring that your data remains secure, compliant, and governed according to industry best practices.

Post-Migration Support & Optimization

After the migration, we provide ongoing support to optimize performance, security, and scalability for your Azure environment.

Azure Service Offerings

APPLICATION MODERNIZATION
- Platform as a service (PaaS)
- On-Prem application to cloud
- Modernization
- SQL DB/.net app modernization
- AKS containerization & orchestration
- Azure DevOps (CI/CD)
- Logic Apps

SAP ON AZURE
- S/4 HANA Implementation
- SAP mamaged cloud as a service
- SAP workload migration on
- Any DB to Azure

BUSINESS CONTINUITY & DISASTER RECOVERY (dr)
- Setting up DR and Back up service including 24/7 monitoring
- Azure Site Recovery
- Database replications
- Dr on demand (pay as you use)

DATA AND AI
- Azure Data Lake
- Big Data Integration
- AI/ML
- Data analytics

Datacenter and Modernization

- Create a detailed migration roadmap encompassing phased application and database movement, tool strategy, automation, and pipeline definition.
- Implement a PoC by deploying one application to test migration viability.
- Infrastructure provisioning (compute, network, storage, database), system architecture, and tool selection.
- Image migration, disaster recovery, VM conversion, containerization, and application modernization.
- Confirm system test results for environments and applications to enable business development.
- Oversee monitoring, releases, and changes for services and applications.

MSRcosmos Services

Azure Assessment
- Comprehensive discovery and analysis of your current infrastructure, applications, and workloads.
- Cloud readiness assessment and gap analysis.
- Identification of key dependencies, risks, and compliance considerations.

Azure Migration Planning
- Development of a detailed migration roadmap and strategy tailored to your business needs.
- Cost estimation and optimization plan.
- Security assessment and compliance strategy.

Azure Migration Execution
- Data, application, and workload migration to Azure with minimal downtime.
- Integration of Azure native tools and services.
- Real-time monitoring of the migration process to ensure smooth execution.

Post-Migration Support
- Continuous monitoring and optimization of your Azure environment.
- Troubleshooting and performance tuning.
- Ongoing security assessments and updates.

Benefits of Migrating to Azure

- **Scalability:** Easily scale your infrastructure to meet the demands of your business.

- **Flexibility:** Take advantage of Azure's wide range of services, from compute and storage to AI and analytics.

- **Reliability:** Azure ensures high availability, disaster recovery, and fault tolerance.

- **Security:** Benefit from Azure's robust security features and compliance certifications.

- **Cost Efficiency:** Pay only for the resources you use, and take advantage of Azure's pricing models to control costs.

Who Can Benefit?

- Enterprises looking to modernize legacy infrastructure.

- SMBs aiming to leverage cloud benefits for growth.

- Organizations planning to move to the cloud but unsure of the best approach.

- IT teams that need help executing a safe, efficient migration to Azure.

Let us guide you through a hassle-free Azure migration journey. Our experienced cloud consultants are here to help you every step of the way, from assessment to post-migration optimization.

Take the First Step Towards Cloud Transformation Today!

About Us

MSRcosmos is a fast-growing global IT services company with unmatched capabilities in cloud solutions, data & AI, intelligent automation, and enterprise application. Our unwavering commitment to "Promise Delivered" is Manifested through our steadfast dedication to delivery excellence, pathbreaking solutions, highly differentiated talent, and a methodical approach.
