

MULTIPLIER - SAAS MANAGEMENT FOR TEAMS USING JIRA

Discovery of all apps in use company wide

Uncover usage and spend insights

Automate manual IT workflows directly from Jira

The screenshot displays the 'Applications' page in Jira Service Management. The interface includes a navigation bar with 'Your work', 'Projects', 'Filters', 'Dashboards', 'People', and 'Apps' menus, along with a 'Create' button. A sidebar on the left shows the 'Rocket Service Project' and an 'Applications' section. The main content area features two summary cards: 'APPLICATIONS 218' with a 'View all' link, and 'AVG MONTHLY SPEND \$453,400' with a 'View details' link. Below these is a search bar and filters for 'Vendor' and 'Status'. A table lists the following applications:

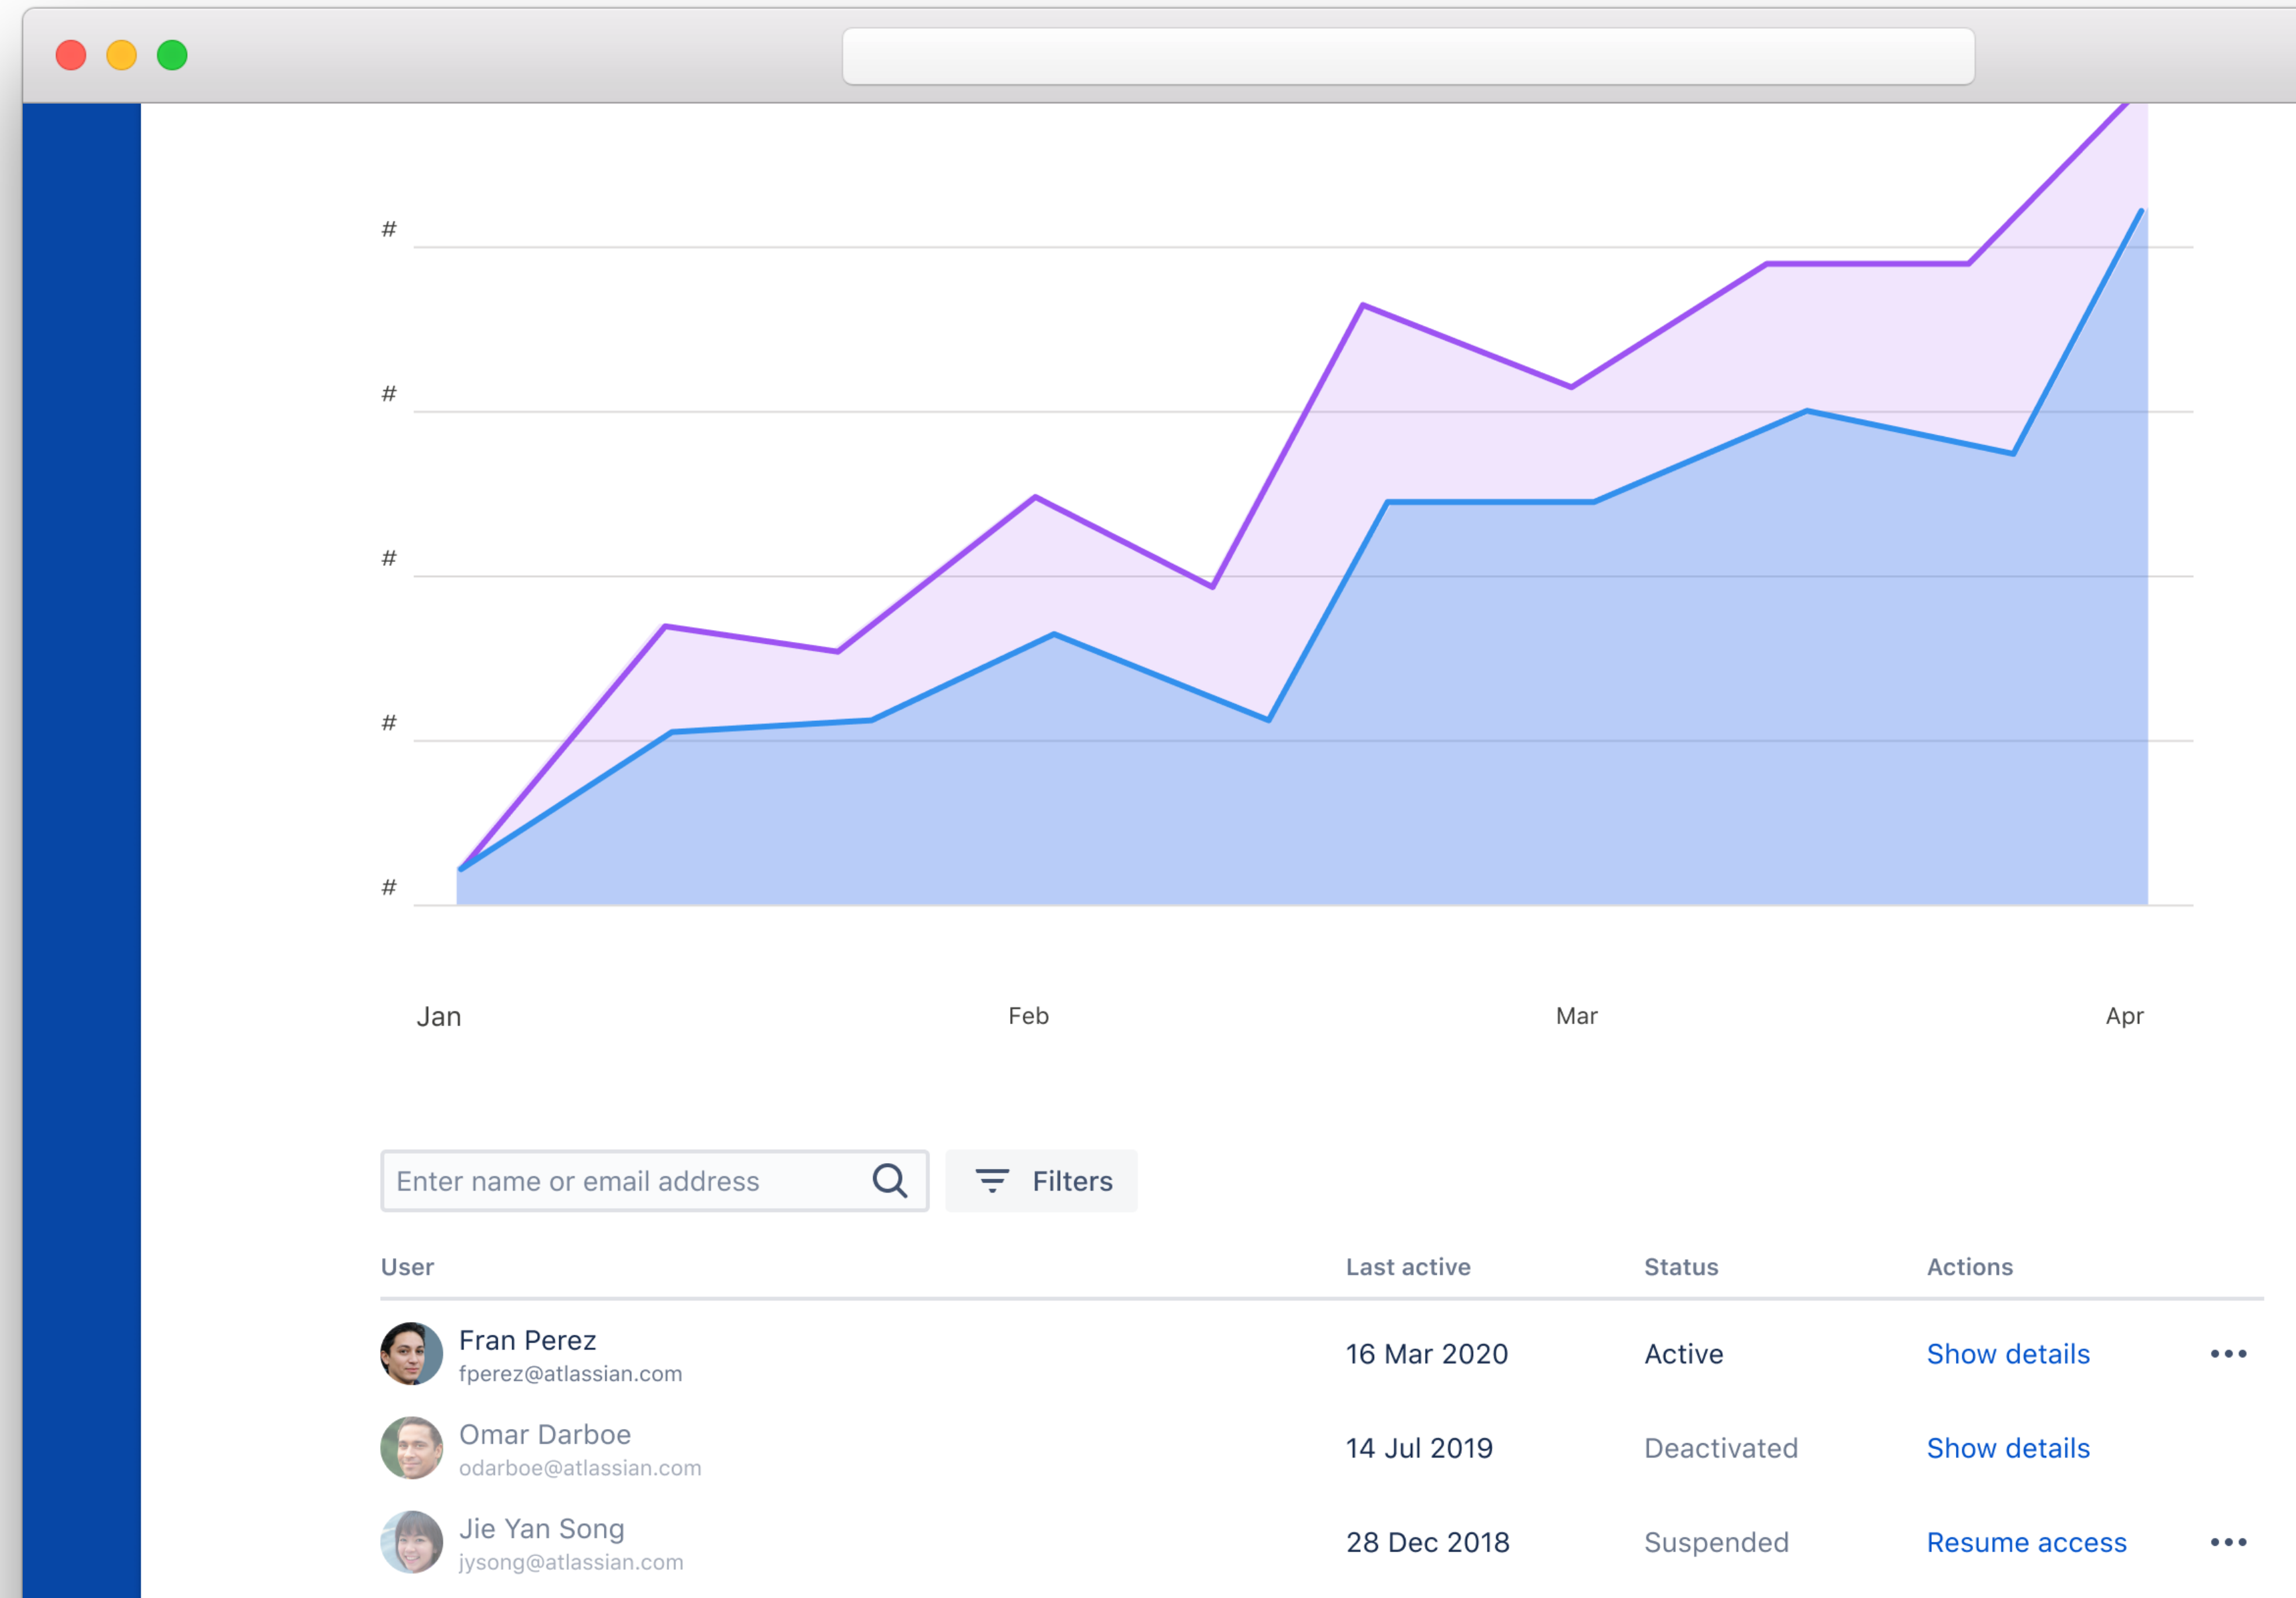

Name	Category	Licenses	Active Users
Dropbox	Storage	344	282
Lucidchart	Diagramming	96	67
Figma	Design	28	25
Zendesk	Support	11	10
Mailchimp	Marketing	23	19
