- Online videos used as communication tool for marketing, support, help, training, education and so on
- Provides piracy protection
- Availability of online video across the globe

Do more with Videos

- Host on website & Apps

- Share on social media platforms

- Communicate with consumers online & offline

- Power OOH experiences

- Build business around Video

- Monetize via Video

- Generate Leads

Comparison

YouTube

- Clutter with Ads
- No customization to the player

dailymotion

- Offers limited security

WISTIA

- Can change player colors only
- Highly focused on external streaming

vimeo

- Frequent lags & long buffering time
- Non-accessible in certain countries

JWPLAYER

- Basic security
- Lack of mobile support
- No closed caption

FLEX
