

POLICY CLAIM AND REPORTING SOLUTIONS™

Software for Administrators, Insurers, Agents, and Dealers

The Next Generation Administration Platform

 **PCMI**
Your Technology Partner

Expert Team. Trusted Results.

“I start each day ensuring that we are delivering on the promise of providing the best administration system to each of our customers. We have spent years building a team of industry experts, which gives our clients the confidence that we understand their business. Our commitment to being “Your Technology Partner” is evident through the investment we have made in our people, product, and processes.”

Mark Nagelvoort
President & CEO

Solving your technology problems one module at a time.

PCMI Corporation offers the most comprehensive package of integrated software solutions for Extended Warranty management and F&I administration. Our modular platform, Policy Claim and Reporting Solutions™ (PCRS), supports and automates the full lifecycle of all aftermarket products. We provide the fastest and most flexible environment for an administrator to launch new products. As a SSAE16 cloud-based application, our customers obtain cost benefits in real-time through PCRS.
