NAVARA

Maximizing business impact with improved Developer Experience

Our team of certified professionals helps you to innovate faster. We leverage the power of AI-assisted tools and the most comprehensive development platform to help customers innovate faster and accelerate delivery of intelligent apps. We are leveraging hero products like GitHub, GitHub Actions, GitHub Enterprise, Azure DevOps and GitHub Advanced Security.

Microsoft
Solutions Partner

This is how we do it

1. **Ignite – 2 weeks:** UX research, set up user groups, approved UX/UI designs, set up environment and architecture, set up DevOps Insights, set up Analytics.

2. **Perform – 8 weeks:** Development in SCRUM, soft launch with 1st version in 6 weeks, implement first improvements, learn and improve, weekly demo, hard launch after 5 sprints

3. **Improve:** Learn and scale platform with data and feedback, build next features, hosting maintenance and support (ISO, ISAE and GDPR complaint)

About Navara

Navara is a high-end IT consultancy specializing in software development. Software and data increasingly determine your competitive advantage in the market. Therefore, we assist conventional businesses in transitioning into technology companies. We believe that a better developer experience leads to improved software delivery, thereby significantly enhancing our clients' business results.
