

Thai Localization Pack Solution

NaviWorld Thai Localization Pack for Microsoft Dynamics provides global solution for local regulations.

Enterprises operating in Thailand are struggling in using separated systems to meet international standards but comply with Thai Revenue Department Regulations. That leads to disconnected systems and un-updated information which seriously impact to their business operation.

NaviWorld Thai Localization Pack for Thai Accounting and business practice

Based on Microsoft Dynamics tailored for businesses operating in Thailand, NaviWorld Thai Localization Pack not only meet crucial Thai tax laws but provide the global and efficient functionality of Microsoft Dynamics. To help businesses in Thailand to optimize their business operation, our Thai Localization Pack delivers a Thai language pack for users easy to use in Dynamics system.
