NBConsult Offer

Windows Virtual Desktop delivers virtual desktops and apps seamlessly from Azure that can be accessed anywhere anytime and from any device.

Windows Virtual Desktop offering includes:

- Professional services for WVD with consulting
- Assessment
- Design & Implementation

Combined with our industry-proven managed services support. Our solution encompasses both **Microsoft native as well as application Standard Operating Environment (SOE).**

NBConsult's WVD offering will help you to **plan & execute the adoption of WVD** into your current IT environment or migrate from your existing on premise VDI infrastructure to Microsoft WVD.

NBConsult, through the technology of **Azure Lighthouse** and delegated resource management, will provision:

- Azure Vnets,
- Azure Storage accounts,
- Log analytic workspaces,
- WVD Tenants (Fall release and Spring release),
- image templates,
- host pools,
- session hosts and
- identity management to the subscription or resource group you designate in your Azure tenant.

"Can be used on any device, all you need is an internet connection."

Phased Approach

NBConsult's **phased approach for a smooth transition** to a complete Windows Virtual Desktop environment:

1

PHASE 1: ASSESSMENT

Assess existing environment to understand current user landscape.

2

PHASE 2: DESIGN

Design secure and resilient WVD Azure Environment.

3

PHASE 3: BUILD

Build and deploy user-persona based WVD host pools and Win 10 images.

4

PHASE 4: MIGRATION

Phased migration to the new WVD environment, which includes change management and user training.

5

PHASE 5: MANAGED SUPPORT

Monitor and manage the health of the solution as well as continued optimization.
