

# NeoApps.AI – Build Applications Faster, Smarter, and Without Code

Empowering businesses with no-code/low-code app development.

01

## What is NeoApps.AI?

NeoApps.AI is an innovative no-code/low-code Platform-as-a-Service (PaaS) solution that allows businesses to create, customize, and deploy applications without the complexity of traditional development. Whether you're a small business looking to streamline operations or a large enterprise aiming to automate workflows, NeoApps.AI simplifies the app-building process using AI-driven tools and drag-and-drop features.

02

## Why NeoApps.AI?

### Feature 1: AI-Powered Automation

NeoApps.AI uses artificial intelligence to automate key processes like gathering requirements, generating databases, and producing backend and frontend code, reducing time to market.

### Feature 2: Drag-and-Drop Simplicity

Our user-friendly interface allows you to design databases, workflows, and web components without writing a single line of code.

### Feature 3: Ready-to-Deploy Templates

Quickly customize and deploy pre-built SaaS templates to suit your business needs.

### Feature 4: Seamless Integration

Easily integrate with existing tools for accounting, CRM, inventory management, and more.

03

## How It works

### Create, Customize, and Deploy

**Step 1:**

Start by defining your app requirements using the built-in AI chatbot.

**Step 2:**

Generate a database automatically or use the drag-and-drop designer to build it yourself.

**Step 3:**

Customize your app's interface using the drag-and-drop web component designer.

**Step 4:**

Use the integrated Node-RED Workflow Designer to create automation workflows for your app.

**Step 5:**

Deploy your app with just a few clicks and manage everything from the NeoApps.AI dashboard.

**04**

## Use Cases

- **Business Operations:** Build tools for project management, inventory tracking, and employee data.
- **Sales & Marketing:** Create custom CRMs and automate marketing campaigns.
- **Healthcare:** Manage patient records, appointments, and billing systems with compliance-ready tools.
- **Education & Training:** Develop learning management systems and student portals.
- **Finance & Accounting:** Track expenses, generate financial reports, and automate invoicing.

**05**

## Infrastructure Setup

NeoApps.AI sets up your infrastructure with **Azure Kubernetes Service (AKS)**, **Azure Container Registry (ACR)**, and automated **DevOps pipelines** to make deployment seamless. With everything automated, you can focus on building and innovating.

**06**

## Benefits

### Why Choose NeoApps.AI?

- **Rapid Deployment:** Build and deploy apps in hours, not weeks.
- **Scalability:** Easily scale your apps with robust cloud infrastructure.
- **Security:** Built on industry-leading security protocols for data protection.
- **Cost Efficiency:** Reduce development costs and focus on innovation.
- **Customization:** Tailor apps to meet your specific business needs with pre-built templates.
