

Azure Integration Services (AIS): 1-Day Assessment

Hybrid Integration Service

Azure Integration Services (AIS) brings together API Management, Logic Apps, Service Bus, and Event Grid as a reliable and scalable platform for delivering on-premises and cloud-based applications, data and processes integration across your enterprise.

Why NeosAlpha

We are a certified Microsoft Partner for Application Integration. Our Microsoft Azure certified experts backed up by large number of integration (strategy to implementation) projects experience can help you accelerate your journey to integration.

Our Approach for 1 Day Assessment

Agenda

1. Discovery - Understanding your business priorities and IT goals. Current system landscape (as-is and to-be architecture) including on-premise and cloud initiatives.
2. Business Benefits - Evaluating value of integration platform to the organization. Covering high level integration scenarios like data, systems, process and APIs integration.
3. Approach - Azure Integration Services (AIS) capabilities and approach discussion. Sharing our learnings on integration approach, roadmap, integration solution frameworks and what would success look like.

Deliverables

- Few Slides covering high level approach on integration journey with AIS
- Recommendation on next steps including PoC, business case, pilot project, operating model.

Testimonial

We worked with NeosAlpha to deliver an Integration Strategy to help us start our journey on implementing our vision of 90% of our customer services being delivered digitally. The time we spent with NeosAlpha was very beneficial and they helped us shortcut an awful lot of learning we would've had to do ourselves. They came with a rich experience of delivering varying sizes and scales of integration and were able to explain how we could avoid some of the pitfalls that exist. We delivered the strategy very quickly which was directly linked to the quality and competency of the NeosAlpha team. – **Paul Fitton, Head of IT Architecture, Home Group.**

About NeosAlpha

NeosAlpha is an integration expert IT Consulting and Services company focused on delivering accelerated value through our expertise in selective technologies, platforms and low-code approach - empowering businesses to compete and thrive in the modern data-driven economy.
