Neo Report Generator and Analytics

Revolutionizing Regulatory & Enterprise Reporting with AI

Automating data collection, validation, and report generation with narratives and analytics.

Neo Report Generator and Analytics

The Challenges in Reporting

❑ Manual consolidation of stakeholder or licensee data is slow and error-prone.

❑ Regulatory and industry reports lack timely insights and consistency.

❑ Decision-making is delayed due to fragmented data and manual processing.

Introducing Neo Report Generator and Analytics

What it does?

❑ Provides a secure portal for stakeholders to submit required data.

❑ Automatically validates and organizes submissions into a central database.

❑ Generates reports enriched with AI-powered narratives, sectoral insights, and visual analytics.

❑ Exports insights into multiple formats (PDF, Docx) for sharing and publishing.

Core Features of Neo Report Generator and Analytics

❑ **Data Submission Portal** – Streamlined stakeholder uploads.

❑ **Data Validation Engine** – Ensures accuracy and compliance.

❑ **GenAI-Powered Reporting** – Combines narrative insights with charts.

❑ **Interactive Dashboards** – Drill-down views of sectoral or organizational trends.

❑ **Seamless Integration** – Works with existing databases and reporting systems.

End-to-End Workflow

❑ **Data Submission:** Stakeholders upload datasets via secure portal.

❑ **Validation & Processing:** AI validates and consolidates data.

❑ **Report Generation:** Automated narrative + graphs created by GenAI workflows.

❑ **Review & Export:** Reports reviewed and exported in desired formats.

❑ **Decision-Making:** Leaders use insights to ensure compliance and guide strategy.

Why Choose Neo Report Generator and Analytics?

❑ **Efficiency Gains:** Automates manual data consolidation and reporting.

❑ **Improved Accuracy:** Validates submissions for consistency.

❑ **Faster Insights:** Reduces time from data collection to publication.

❑ **Beyond Dashboards:** Generates **text + charts** for complete sectoral reports.

❑ **Scalable & Secure:** Adapts to regulators, associations, and enterprises.
