

Cloud Center of Excellence (CCoE)

Being a global company, Ness Cloud is proficient in locating excellent centers of excellence that are the best fit for its client's development needs.

Ness Cloud's development center of excellence offers an optimal high-quality solution while significantly reducing developing costs. This is achieved thanks to government grant plans aiming to encourage the hire of experienced professionals leveraged by Ness Cloud's unique methodologies, tools, hiring and operational processes, and the unique infrastructure for operating development centers and management of technology teams.

Join Ness Cloud's dozens of customers in and outside Israel who leverage Ness Cloud's dozens of development centers of excellence across the world.
