Businesses need digital transformation, but don't know where or how to start

Digital transformation isn't just about technology. It's also about continuous improvement and setting the right priorities. Start with your people and organization and reimagine your current way of working.

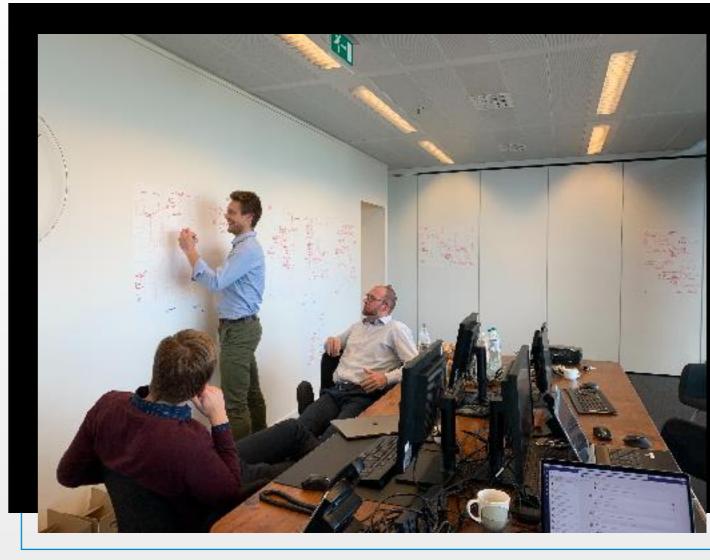

CHALLENGES

Transformation is absolutely necessary for all companies to compete and remain relevant.

IDEAL SOLUTION

Together, we'll define the roadmap for your digital transformation to help your organization reach its strategic goals and translate them into innovative business applications.

DESIRED OUTCOMES

You'll have a clear view on the business value and investment costs for digitally transforming your business. We deliver a feasible plan to confidently move toward a successful future.

Catalyst IDEA Framework

- Inspire
- Design
- Empower
- Achieve

Net·IT
Your CRM. Quality Matters.

Microsoft Catalyst

Microsoft Catalyst is a proven design-thinking methodology that helps companies define their digital transformation roadmap.

1

Envision the future of your business

Via envisioning workshops, we identify challenges and discover new, growth-enabling opportunities.

2

Designing your digital workspace

We translate your strategic goals into innovative and future-proof business applications.

3

A well-tailored and feasible plan

We provide a clear view on the business value and investment costs of your digital transformation.

Net IT business expertise & the Microsoft Catalyst IDEA framework

Our experts are trained in Microsoft Catalyst to help organizations define their digital transformation roadmap. Microsoft Catalyst provides the framework for analyzing business requirements, aligning conflicting needs, and clustering and ranking priorities.

Inspire

We'll follow a design-thinking approach during workshops and interviews with key people in your organization.

Design

We'll design the business applications that fulfill your unique business requirements.

Empower and achieve

We'll deliver proof of the technical possibilities, as well as a digital transformation roadmap optimized for your organization.

Customer success: Vasco Group optimizes its sales and marketing

Vasco Group's sales managers lacked an effective tool to efficiently coordinate their international teams. They wanted a 360-degree view of every client and direct access to all the necessary information. Net IT delivered the project plan to move Vasco Group from its legacy way of working to a new digital workspace.
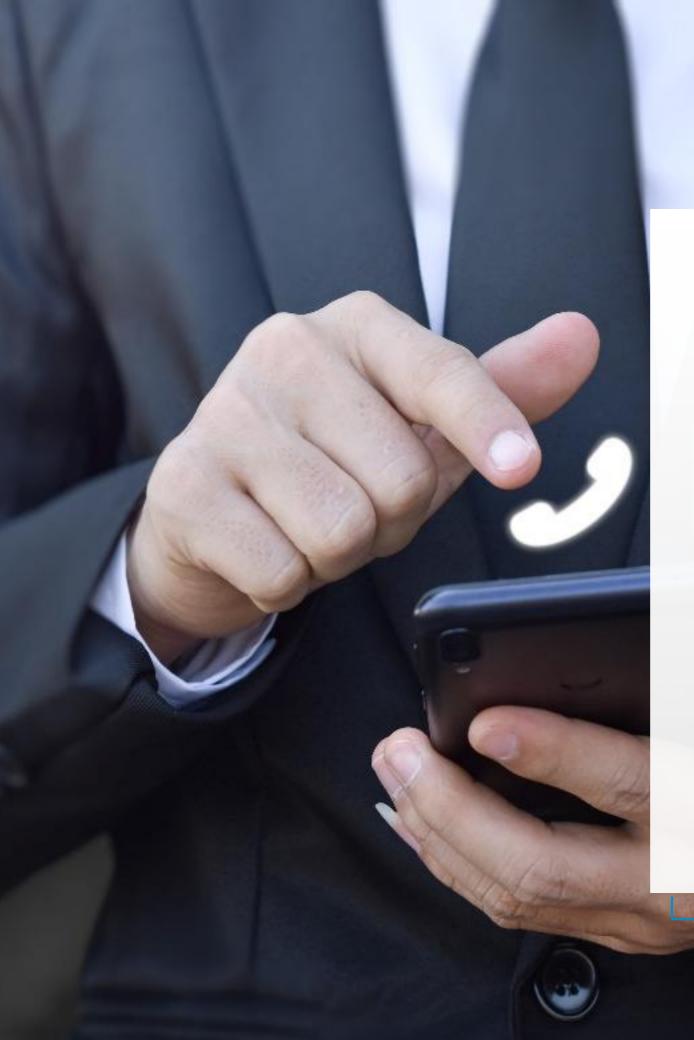

Solution focused on adding business value
Vasco Group obtained a clear description of a solution that could vastly improve its sales processes.
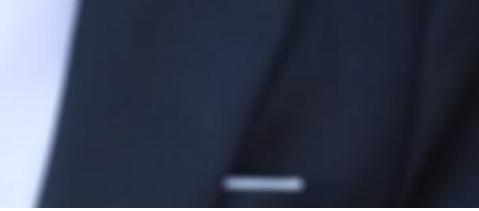

Investment and ROI
The project proposal described the solution, as well as investment required, the different project phases involved, and advantages it delivered to Vasco Group's business.

A feasible plan
Vasco Group received a workable plan for each of the phases of its digital transformation process.
