

A Facilitated Workshop

Copilot for Microsoft 365 Workshop

A NETRIX GLOBAL OFFERING

Educate and excite your organization on how to transform the employee experience with artificial intelligence integrated into Microsoft 365.

Designed as a three-phase engagement, the Copilot for Microsoft 365 Workshop helps customers assess their needs, understand the capabilities of Copilot, identify persona-based scenarios to articulate Copilot value, and define an actionable roadmap.

What to expect

Assess: Our self-guided assessment introduces you to the technical and organizational requirements for Copilot, gathers information on key business scenarios, and sets up the foundation for our workshop.

Art of the Possible: During this phase of the workshop, a combination of presentations and demos will educate and excite your participants on how to unleash creativity, unlock productivity, and uplevel skills with Copilot for Microsoft 365.

Build the Plan: Based on real personas in your organization, we want to define and prioritize top Copilot scenarios, and work to develop an implementation plan.

Who is this for?

- Organizations that are exploring the capabilities and business value of Copilot for Microsoft 365.
- The workshop audience should include business leaders, technology leaders, and knowledge workers.

What do you get?

- An overview of Copilot for Microsoft 365.
- Presentations and demonstrations to illustrate:
 - The AI-powered organization
 - Microsoft's commitment to responsible AI
 - How to **unleash creativity, unlock productivity, and uplevel skilling** with Copilot
 - Teams Premium vs. Copilot in Teams
- Personas that help identify Copilot scenarios that return business value.
- A final deliverable that includes the top scenarios identified and recommendations with a clear solution plan, next steps, and any prerequisites.
- Ask about our additional services to assist with remediation, pilot, and production implementation.
