

A Pilot Engagement

# User Adoption Jumpstart for Copilot for Microsoft 365

A NETRIX GLOBAL OFFERING

## Get a Jump Start with Copilot

Enable your employees to transform their work experience with Copilot for Microsoft 365 by learning the best ways to get comfortable with the technology.

Over the course of your rollout, Netrix's Business Analysts and Change Consultants will help with user enablement, adoption reporting, and training strategy.

Building on your business use cases and Copilot scenarios, we'll help your users maximize the impact on productivity at your organization.

### What to expect

Netrix will help you achieve your adoption goals by guiding your organization through best practices that will jumpstart your Copilot usage:

- o Form your Copilot Flight Crew and Champions program
- o Identify and prioritize your scenarios
- o Navigate the Copilot interfaces
- o Educate end users on prompt engineering
- o Measure per-workload success of Copilot adoption

### Who is this for?

- o Organizations that are deploying Copilot for Microsoft 365 to business users and want to maximize their ROI.
- o The adoption materials are suitable for business leaders, knowledge workers, and any change management or communications specialists.

### What do you get?

- o Adoption checklist & planning worksheets
- o Communications plan and templates
- o Ongoing pilot training strategy
- o Cutsheets and other learning artifacts
- o Ask about our services to assist with additional training sessions (live or recorded), as well as additional readiness assessments, remediation, and implementation services.
