Netsurit Innovate

Say **YES** to Innovation!

Netsurit Innovate drives competitive advantage, **reduces costs**, and enhances customer experiences through **automation and digital transformation.**

Industry **First and Only** Return on Innovation **Guarantee**

Why Do I Need To Innovate?

Are you worried about falling behind your competition because you're struggling with digital transformation and innovation initiatives? If so, you are not alone. According to Deloitte, 87% of companies think digital will disrupt their industry, but only 44% are prepared.

Companies that fail to innovate are left in a dangerous position, especially when competitors are busy automating their businesses and improving customer experiences.

Signs that Netsurit Innovate may be right for you:

- Tired of being told NO to your business automation initiatives?
- Employees wasting time on cumbersome manual processes and poor systems?
- Islands of data holding you back from rapidly making informed business decisions?
- Workforce struggling with inefficient legacy systems not optimized for the modern workplace?

What Is Netsurit Innovate?

Netsurit Innovate is a game-changing subscription service that continuously enables non-stop automation and digital transformation initiatives.
Netsurit's industry-first and only **"Return on Innovation"** guarantee and **on-demand experts** eliminate risk and enable your team to move at the speed of modern business.

Netsurit Innovate provides scalable access to a team of business analysts, data analysts, architects, developers, QA specialists, UI/UX engineers, AI/ML specialists and integration experts that:

- Design and build apps, integrations, data models, dashboards and automated business process flows
- Deliver rapid innovation through low code/no code tools such as Microsoft 365
- Amplify the effectiveness of your team and allow you to say yes to more innovation projects

Are the demands of business operations and maintenance crowding out Innovation? According to Deloitte, only 18% of IT budgets are spent on innovation.

Non-Stop Innovation
Deliver more IT innovation projects with **Guaranteed ROI**

▶ **TRANSPARENCY**
Dashboard view into projects, savings and business impact

▶ **MAKE THE MOST OF WHAT YOU HAVE**
We leverage the software you already have
Client Case Study

What was the problem?

A time consuming and **costly manual process** to capture supplier invoices.
The task took **180 hours** a month to complete and cost approximately R100,000.

What was the solution?

Design, build and implement an **artificially intelligent supplier** invoice capturing system, using Microsoft Power Automate and **AI** optical character recognition (OCR). **The workflow** captures the invoice data from the supplier provided a copy to an Excel worksheet. All the tools leveraged were **readily available** within the client's Microsoft 365 subscription.
What was the result?

A saving of **180 man-hours** or **R100,000 a month** and the ability to reallocate the human resources to areas that would **better utilize** their individual skills.

Return On Innovation – Pillars of Success

We measure our **Return on Innovation Guarantee** and the impact it has on your business in the following critical areas:

1 Cost & Time Saving

Helping your business save time and money from your digital investment.

2 Risk Reduction

Reducing business risk through intelligent prevention.

3 Adoption Value

Ensuring your technology is utilized to its maximum potential.

4 Employee Engagement

Keeping your employees' engagement and productive.
