Microsoft Viva Insights

Help your people and  
your business thrive

NETSURIT • one together.

## Balance productivity and wellbeing

In today's world, employees want **more flexible remote work options** and **meaningful in-person collaboration**. Empowering people to thrive in a more flexible work environment requires rethinking everything – from how you empower managers, to how you create culture, and how you reimagine the employee experience.

And that's where **Microsoft Viva Insights** comes in. Employees are facing many challenges: the growing imbalance between work and life, increased burnout, and decreased wellbeing. For your organisation, that can mean diminishing social capital. That's why there is an urgent need to **digitally reimagine the employee experience**.

By empowering individuals and teams to achieve balance, build better work habits and improve outcomes, you can drive the adoption of a new way of working within your organisation. And we can help your people adapt to this change.

**Discover how Microsoft Viva Insights can help individuals, managers, and leaders gain personalised insights and actionable recommendations that enable everyone in the organisation to thrive.**

INDIVIDUALS	MANAGERS	LEADERS
<p>People are the foundation that makes your business run.</p> <p>Offer personal and private insights to each individual and identify opportunities to change how they work so they can do their best work.</p> <p>Prioritise wellbeing and boost productivity with actionable recommendations, such as setting aside time in the day for regular breaks, focused work, and learning.</p>	<p>Managers are lifelines in times of disruption and change.</p> <p>Give them visibility into the norms that can lead to burnout due to after-hours work, meeting overload, or too little focus time so they can help their teams work smarter, feel balanced, and thrive.</p> <p>Manager insights have built-in safeguards to protect personal privacy.</p>	<p>Leaders need visibility into how work happens so they can create a culture where people and business thrive.</p> <p>Empower them to identify opportunities to improve wellbeing and engagement with organisational insights generated from deidentified aggregate data, and research-backed best practices to meet challenges head on.</p>

# It's Time for Microsoft Viva Insights When:

Employees are working long hours and you need to see where this is happening and why.

There are too many back-to-back meetings, leaving people stressed and overwhelmed.

Long and large meetings being held, harming engagement and limiting productivity.

Little interaction between departments is leading to mistrust and lack of cooperation.

The disconnect between line managers and teams is impacting performance.
