

Unlock Scalable AI Innovation with Netways Azure AI Foundry Readiness Workshop!

Azure AI Foundry

Your end-to-end AI platform for building, deploying, and scaling intelligent solutions, Azure AI Foundry empowers organizations to unlock greater business value through advanced AI. It brings together state-of-the-art models, enterprise data, and the web in a secure Azure environment enabling real-time insights, responsible AI development, and scalable AI workloads across the organization.

Netways empowers organizations to move from AI experimentation to structured, secure, and scalable adoption of Azure AI Foundry establishing a robust foundation for building, deploying, and operating enterprise-grade AI solutions.

Through our AI Success Framework, Netways partners with your teams to assess readiness, enable AI development capabilities, and translate business challenges into production-ready AI use cases powered by Azure AI Foundry.

By combining hands-on technical enablement with a clear AI scale roadmap, this engagement prepares organizations to confidently advance from pilot initiatives to responsible, enterprise-wide AI adoption.

AI Vision & Readiness

Capability & Use-Case Alignment

Azure AI Foundry Enablement

AI Build & Operationalization

Scale & AI Factory Roadmap

Scale your AI Journey Securely with Netways

Enable secure Azure AI Foundry adoption, build AI capabilities, and define a roadmap to scale your enterprise AI solutions.

Engage & Assess

1 Day

- Engagement kick-off Workshop Overview & Industry AI Use Cases
- Microsoft AI Foundry vision and value
- Conduct an AI Readiness Assessment
- Digital Landscape Assessment

Educate & Inspire

1 Day

- Discussion of Results with the IT Team
- Workshop Overview & AI Capabilities with business departments
- Persona & Journey Mapping Activity with business departments
- BET Framework Workshop for the business departments

Onboard & Enable

1 Day

- Discussion of Results for functional departments
- POC Requirements Alignment with the functional departments & IT Team
- Building the Architecture & Roadmap with the IT Team

Build & Train

8 Days

- PoC Kick-off & Environment Readiness
- Data & Integration Setup
- Model / AI Service Configuration
- Application Set-up & Workflow Enablement
- Security, Compliance & Responsible AI Checks
- Testing, Tuning & Performance Validation

Extend & Scale

1 Day

- POC Demonstration
- Solution Handover
- Introduction to Netways AI Factory Approach
- Next Phase AI Roadmap at a scale

End of engagement goals

By the end of this engagement, we will

Assess Readiness

Assess your AI readiness for adopting and scaling solutions using Azure AI Foundry.

Prioritize AI Scenarios

Establish high-value scenarios for rapid AI adoption and value

Enable AI Development

Implement security, compliance, and Responsible AI within Azure AI Foundry.

Define a Scale Roadmap

Create a clear roadmap to towards enterprise-scale AI on Azure AI Foundry.

'Netways enables organizations to adopt Azure AI Foundry with confidence establishing technical readiness, accelerating production-grade AI development, and defining a clear path to scalable, secure, and responsible AI transformation.'
