Get your AI Journey Started with Netways M365 Copilot Chat Enablement Workshop!

Copilot Chat

Your AI assistant that boosts productivity, helping you unlock more value to grow and run your business. Integrated into the apps you use every day, it combines the power of the most advanced AI models with the web and your business data, offering real-time intelligent assistance and secured collaboration for your employees.

Netways helps organizations move from AI experimentation to confident, responsible AI usage starting with our Copilot Chat Adoption Workshop.

This engagement enables organizations to establish a safe and scalable starting point for AI, empowering employees to use Copilot Chat effectively while laying the groundwork for Microsoft 365 Copilot and AI agents.

Our structured approach ensures immediate productivity impact, secured AI usage, and a clear adoption pathway towards adopting AI at scale.
