

Introduction Basedriver

Peter van der Schaar, 21 januari 2020

Increasing output

Increasing relevance

What is Basedriver

Basedriver is a Marketing Automation Platform that improves the productivity of the marketing team.

With Basedriver, marketers are able to create relevant campaigns, in a secure environment and based on reliable data.

With Basedriver you will generate **more traffic**, and therefore more **revenue** from your marketing database

The advantages of Basedriver for marketing automation

User friendly workflow:

Everybody in the organisation is able to create content and campaigns, without technical knowledge, in a workflow that fits your marketing process.

Automated content personalisation:

Automatically create different campaign versions, based on available content and user data.

Built for multiple brands and returning customers:

Create multibrand campaigns and share content between brands, in a GDPR proof environment.

Results that count!

Up To

75%

Profile to visit ratio – per month!

Down to

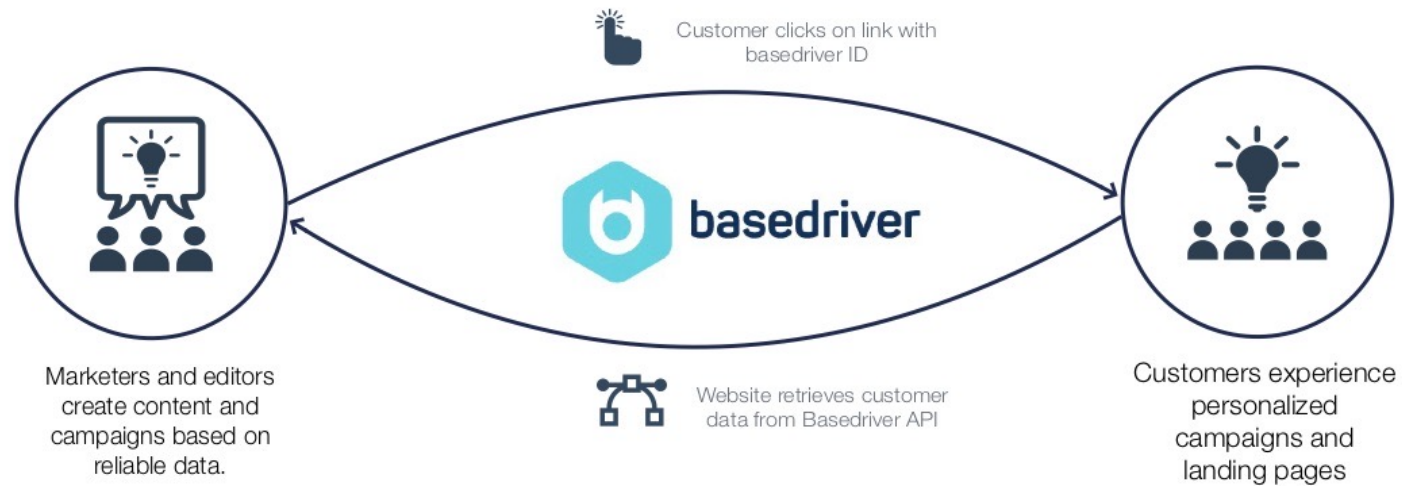

€0,015

Cost per recognizable visit

Our most advanced customers generate a 75% profile to monthly visit ratio at €0,0015 per visit

Increase online traffic and identify them online to create a personalised online journey.

The Basedriver approach to marketing automation
