Microsoft

Solving business challenges with technology solutions

NETWORKING PLANET:

This 40-hour assessment and POC (proof of concept) will allow our team to create and deploy a PowerApp in your infrastructure and ensure feature, functionality, and enterprise architecture as per best practices defined by Microsoft. We will define the application and flow to target, and our team will work with yours on building out a working plan using the latest recommendations and provide a full deployment plan on the proposed solution.

WHAT WE OFFER

- Day 1: Review business requirements, flow, and architecture of the PowerApp and UI / UX Design

- Day 2: Continue PowerApp Buildout and recommended Workflows/Integrations

- Day 3: Finalize design and requirements

- Day 4: Deploy proposed architecture, flow, and features requested

- Day 5: Finalize deployment and provide documentation on solution

On-Premises, Hybrid, and Cloud based technology deployments are focused areas for Networking Planet.

* Not to exceed $10K of services dependent on scope of engagement *

See what customers are saying:

"Working with Networking Planet has been a pure pleasure. Their knowledge and expertise of the industry is outstanding and truly appreciated."

– Georgia School Board

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
