## WHAT WE OFFER

NRB offer a Microsoft 365 collaboration governance workshop solution.

Collaboration governance is how you manage users' access to resources, compliance with your business standards, and ensure the security of your data.

During the different governance workshop, we will help our customers to determine the usage of all the Microsoft 365 collaboration Workload ( Teams, SharePoint, OneDrive), define the security baseline of the collaboration tools (SharePoint, Teams, Office 365 groups).

NRB use the Microsoft Guideline to deploy the best governance plan and have the best possible support evolution.

At the end of these sessions, our customers will receive a governance document with all the settings applied on the tenant.
