NRB SERVICES PRESENTATION

COLLABORATION GOVERNANCE

**NRB offer a Microsoft 365
collaboration governance
workshop solution**

NRB offer a Microsoft 365 collaboration governance workshop solution.

1

CHALLENGES

Collaboration governance is how you manage users' access to resources, compliance with your business standards, and ensure the security of your data.

2

IDEAL SOLUTION

During the different governance workshop, we will help our customers to determine the usage of all the Microsoft 365 collaboration, define the security baseline of the collaboration tools (SharePoint, Teams, Office 365 groups).

3

DESIRED OUTCOMES

At the end of these sessions, our customers will receive a governance document with all the settings applied on the tenant.

COLLABORATION GOVERNANCE WORKSHOP DESCRIPTION

Our Governance workshop helps you to understand the full usage of Microsoft 365 and define the right use of the product depending on the different type of employees.

AZURE ACTIVE DIRECTORY CONFIGURATION

External collaboration
Settings, Group creation,
Expiration & Naming policy

SHAREPOINT ONLINE POLICIES

Sharing, Storage,
creation...

TEAMS POLICIES

Update, Meeting, Live
event, Message, Apps,
External & Guest policy

GOVERNANCE COLLABORATION IN M365

- The workshops provide information on each component of the platform based on an experience of implementation at customers of different types (Enterprise, SMB...)
- Depending on the topics, we will define the rules of governance and/or implement them
- At the end of the mission, a document containing the elements developed/exchanged is made available
 - Proposed Rules of Governance
 - Rules of governance put in place

GOVERNANCE COLLABORATION IN M365

WORKSHOP 1

- If you have the subscriptions, we will go through the existing services and put them into their usage
- If you do not have subscriptions, we will define the necessary subscription(s) based on the needs
- Resume the basic building blocks of an M365 subscription
 - Features of the different products
 - Which product for which usage

AZURE ACTIVE DIRECTORY CONFIGURATION

WORKSHOP 2

- This workshop includes the elements of user and group management
- We will review all security features
- Define the rules & roles of the different users/groups
- Review & define
 - authentication mechanism
 - access of Internal and External users

SHAREPOINT/ONEDRIVE ONLINE GOVERNANCE

WORKSHOP 3

- The workshop reviews all the governance elements of SharePoint and OneDrive
 - OneDrive is based on SharePoint which generates some common configurations
 - Internal User Governance
 - External User Governance
 - Content security (governance rules based on content classification)

TEAMS GOVERNANCE

WORKSHOP 4

- The governance of Teams
 - Group management
 - Internal/External user management
 - Management of documents exchanged through Teams
 - Integration of external applications
 - Integration of development specific to the company

CUSTOMER SUCCESS

Collaboration governance -
Ethias

CUSTOMER SUCCESS

Collaboration governance - Ethias

Thanks to NRB Governance support we stay in control of our O365 Environment.

When implementing O365 could become a nightmare to administer and manage the support of NRB is essential to keep peace of mind.

Thanks to this we fully deployed teams - collaboration in less than 6 months to 1800+ users.

Benoit Boulanger - Product Owner CPOO - Ethias

NRB helped us defining the parameters being fully aware of their impact

NRB is providing us with reports keeping Teams and sharepoint access under control

NRB is helping us defining the provisioning tool keeping meta-data effective.
