

DATASHEET

Security Modernization Journey

CHALLENGES

Increasingly elaborate and complex cyber threats plague digital organizations with an increase in costs and time to mitigate risks resulting in a reduced competitive advantage.

The solution landscape is heavily fragmented, leading organizations to purchasing multiple solutions for various aspects of security. This leads to increased overall cost and difficulty in integration.

83% of organizations experience more than one data breach in their lifetime

80% of orgs purchased multiple products to meet compliance and data protection needs

34% of data breaches are a result of insider threats

WHAT WE DO

We unlock the potential of the Microsoft security suite to strengthen your organization's security posture and mitigate cyber security risks.

Fortify Foundations

Secure identities, Access and Endpoints to create a strong baseline

Shield and Protect

Prevent attacks and threats to your data with Information Protection, compliance and governance

Safeguard

Enhance your data & threat protection and perform intelligent analysis for ongoing protection

VALUE REALIZATION

65% Lower breach cost with fully deployed security AI and automation

60% Savings from consolidating your security solutions

23% Less time to identify and contain a breach

HOW WE DO IT

Rapid Deployment

Extensive deployment expertise by a preferred Microsoft Solutions Partner with direct access to product teams.

Maximize M365 License Value

Deep knowledge of Microsoft licensing and best practices to help you unlock value from your existing licenses.

Reduce Implementation Cost

Leverage the global delivery model to minimize cost and delivery time with our proven methodology and templates.

Robust Managed Services

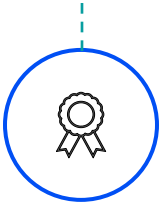

Knowledgeable, reliable, and trustworthy support for seamless ongoing management of your new security suite.

OUR CAPABILITIES

We shepherd organizations safely through the cloud transformation journey by unraveling complex business problems.

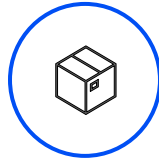

Microsoft Preferred Solutions Partner

Extensive deployment expertise and exclusive access to Microsoft product teams by being a Microsoft Preferred Solutions Partner

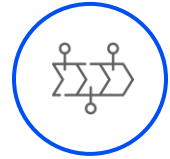

Global Delivery Model

Reduce implementation and management costs by utilizing our proven global delivery model

Templates and Reusable Assets

Apply industry best practices and proven techniques repeatedly for on-time and on-budget solution delivery

Phased Implementation

Reduce risk by taking incremental steps leveraging our proven solution roadmap

WHY NETWOVEN

By partnering with us, our clients securely collaborate globally, improve business operations, build new products and solutions with deeper insights, and reduce cyber security risks.
