COMPANY OVERVIEW

OUR SERVICES

Professional Services

Newcomp Analytics' consultants will assess your specific business needs and gather requirements that address your unique goals. By considering all stages of the project plan, from preliminary business requirements to post-implementation support, training and maintenance, Newcomp Analytics is well-equipped to implement, configure and support the optimal solution for your team.

Software Licensing & Renewals

Newcomp Analytics' team can help you navigate through your agreements by acting as a liaison between you and your solutions provider, ensuring that you receive the necessary licenses for your needs. We are equipped to manage your annual software subscription and support renewal for you. Maintaining software support is one of the most cost-effective ways to protect your investment. It entitles you to product upgrades, 24x7 telephone support, and a broad knowledge base that the technical experts provide, both on-demand and as required.

Training & Education

We believe that the most successful implementations are the result of educated and empowered users. Our educators are certified professionals who bring real-life practical expertise to the classroom. We offer training in various learning formats including: in-class, online, self-paced, on-site and customized courses, based on role, current skill level and/or company objectives.

Talent Acquisition

Newcomp Analytics has spent years understanding what qualities make a great Analytics Consultant. We have become highly experienced in sourcing, hiring, and training our own top talent for all levels of roles within the company. Our goal is to share this successful recruitment strategy, and provide the right individual trained and ready to take on your unique business challenges with the understanding of specialized analytics software.
