

World-class Legal Operations Reporting

- Built in Power BI, world's leading analytics toolset
- Custom designed to quickly deliver key measures by Timekeeper, Responsible, and Originating Attorneys
- Allows easy access to detailed drill-through to Statements & Transactions

Free your firm from Vendor lock-in

- Customizable to your business model
- Code runs in your Power BI tenant protected by Azure AD
- Any database is supported

Free your firm from disconnected data

- Legacy systems data can be added without impacting business users
- New time & billing systems can be added without impacting business users
- Other data sources can be added as needed (accounting systems, draws, topside adjustments, etc.)

Platform for getting answers to questions you can't ask now

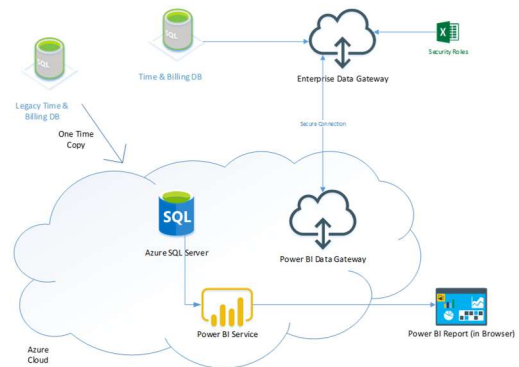

- Understand Cash Flows & Monthly Statistics at any point in time
- Profitability, Rates, Draws, and more
