

IPM Consulting Services

In a cloud-first world, having the right application landscape is vitally important. Forward-looking enterprises realized this and are embarking upon application modernization journeys. However, with complex existing technology stacks and a variety of cloud targets, a smooth transition can be a challenge.

Cognizant's IPM practice provides consulting services to collaborate, engage & execute the customer's adoption journey using IBM Cloud Pak for Automation and Integration platforms on Azure Cloud.

Integration and Process Management (IPM) is one of Cognizant's foremost technology practices, and also world's leading hybrid cloud integration and digital process automation group. For more than a decade, Cognizant's IPM Practice has been delivering large-scale, complex, cutting-edge, customized technology and business solutions to leading global corporations for their complex integration and process automation needs.

Cognizant strong expertise helps you to accelerate your cloud migration to Azure platform with next-gen solutions, frameworks & methodologies, powered by industry best-practices, extensive knowledge repositories & Azure best in class service offerings.

How Cognizant can help you
