

The background is a solid deep blue. Overlaid on this are several layers of curved, ribbed shapes that resemble a stylized 'N' or a series of overlapping arches. These shapes are rendered in a slightly lighter shade of blue with highlights and shadows, giving them a three-dimensional, metallic appearance. The word 'NEXXER' is centered horizontally and partially overlaps these shapes.

NEXXER

How we help can help

Engage

Raise awareness and service promotion

- Thought leadership
Events and reports

- Accessibility and inclusive design awareness session with Nexer experts including those with lived experience
- 1-2 hour session for a wide audience
- Delivered in a townhall style session

20,000 SEK, session for up to 200 people online, inc. prep and content

Price negotiable if other accessibility services (from slide 5) are purchased

Face-to-face delivery possible, travel costs chargeable

Microsoft accessibility package

- We will run a workshop with clients to help them work through their current challenges, moving beyond compliance, realising the value of building an inclusive workplace and key themes such as:
 - Building and nurturing diverse and inclusive teams using M365 Teams, Microsoft Teams Meetings as well as Chat in Microsoft 365 Teams
 - Running and hosting inclusive meetings and workshops
 - Getting the most from the tools and technology already within your organization such as Microsoft 365, Microsoft Teams, functionality in Microsoft Word, Microsoft Power Point, Microsoft Edge etc
- Introduction to the value of accessibility, an intro to Web Content Accessibility Guidelines (WCAG) standards, the European Accessibility Act 2025 and other relevant legislation in your organisation's region.
- Practical hands-on guidance on how users can utilise common, and often overlooked accessibility features to create more inclusive working environments.
 - Hands-on sessions with accessibility tools such as screen readers, screen magnifiers, etc
 - Hands-on sessions with features and functionality of common Microsoft 365 and productive tools
- We will show practical examples of accessible vs inaccessible services un Microsoft 365 and demonstrate how assistive technology is utilised.

11,500 SEK day rate

1 day workshop (30,000 SEK)
2 day workshop (50,000 SEK)

Discount if Accessibility Awareness session, or any other accessibility services (from slide 5) are purchased

Accessibility maturity – our service delivery model

First steps

Aware of business need,
but not the potential scale of the challenge

Product and service assessment

Understanding the problem, addressing
immediate need, developing a business case

Investment in team capabilities

Developing skills to enable teams to
identify and resolve issues

Investing in culture

Distribution of knowledge across the organisation,
nurturing c-level ownership, and aligning work streams

Investing in growth

Defining north star objectives and organisational
pillars and OKR/KPIs

Legal compliance audits

Awareness
sessions

Accessibility
statements

Embedded roles
and teams

Technical
audits

Inclusive
usability studies
