

Catalyst Envisioning Future State: 5-Days Workshops

Our experts are here to help you solve key challenges such as:

- Artificial intelligence (AI) implementation
- Implement Machine learning
- Using IoT-sensors for extensive analysis
- Real time cognitive manufacturing solutions
- Benefit from Big Data efficiency
- Repel and prevent cyber threats

Welcome to the Smart Factory

The manufacturing industry is undergoing a seismic transformation where we recognize that the digital transformation model needs to be assessed from board room to factory floor with real-time connectivity, automation of key business processes and collaborative secure systems.

Differentiate your business with tools for intelligent innovation management and envisioning new business models with the right strategy for your Smart Factory 4.0, today.

Let's ideate together

Meet with our experts and run an envisioning workshop, where we can ideate together with our full range of experienced and dedicated teams that can assist with deep knowledge sharing and interesting suggestions and ideas to elaborate your core business with Dynamics 365 Finance and Supply Chain Management and how to utilize these products

The assignment will consist of different workshops:

Day 1 Observation study is made where we get to know your organization and decide scope and focus area for the Envisioning study

Day 2 Envisioning workshop where vision, ideas, challenges & opportunities are generated and prioritized for the focus area

Day 3 The documented result will be validated

Day 5 The result is presented for the stakeholders with an action plan

As a result of the workshop an executive summary will be delivered incl., challenges & opportunities, top actionable plan with next steps.

How Nexer Dynamics can help

Leveling up your manufacturing and industry

With global presence and years of experience from manufacturing industry we have created an immersive solution to drive the Smart Factory approach for innovation and implementation of next-gen industry.

What is Microsoft Catalyst?

Build, plan, and execute business transformation strategies with a proven, innovative approach from Microsoft Catalyst—an envisioning and planning program that employs Microsoft Dynamics 365, the Microsoft Power Platform, and the Microsoft Cloud. Your business transformation starts with an I.D.E.A.

Start by finding the transformation strategy that's right for you. Define and prioritize your strategy using development activities, then foster ideation and drive decision making with an envisioning workshop.

Inspire

Imagine a future state solution for your business

Design

Discover what's possible by aligning technology investments to business goals

Empower

Empower others in your organization to see the value

Achieve

Achieve business outcomes and improved customer experiences

➤ Envisioning Workshop

➤ Business Value & Solution Assessment

➤ Solution Demonstration

➤ Transformation Plan
