

Tomorrow's workplace requires **more flexible remote work options** in addition to offering our co-workers a **simple way to collaborate**, both as an in-person experience as well as in our digital environments.

This new flexibility creates opportunities for employees to grow by enabling them to control their work to a greater extent, for instance from where and when their work is performed. A requirement for this is that we start looking at previously self-evident matters in new ways. This applies to everything from how managers lead and follow up their business, to how we build **corporate culture** and how we look at the fact that in-person meetings in many cases are moved away from the water cooler and into the digital workplace.

This is where **Microsoft Viva** comes in.

Together, we will go through Microsoft Viva, **a platform integrated in Microsoft Teams**, that could help you create a more engaging employee experience in the new workplace.

Microsoft Viva Workshop

Discover how Microsoft Viva **helps organisations** deliver personalized experiences to their employees with news, tasks, and conversations, provide data-driven insights and recommendations, organize content and expertise, and deliver formal and informal learning when and where it's needed.

Employee Experience
with **Microsoft Viva**

A three-phase engagement that provides an overview of the **Art of the Possible**, and a deep dive in **Viva Connections** and its connection to Teams and the Intranet

Workshop framework

Assess -1h

- Define scope for the workshop
- Identify business stakeholders
- Introduce Microsoft Viva

Art of the Possible – 4.5h

- Showcase employee experience transformation
- Microsoft Viva overview with a focus on Viva Connections
- Demo
- Identify pain points and challenges

Plan for the future – 4.5h

- Define and prioritize scenarios
- Built a plan with the next steps for your organisation

What you can expect:

- A **prioritized list** of pain points and use case scenarios were Microsoft Viva could help
- A **roadmap** with a rough plan for implementation
- A **report** with the outcome from the workshop
