

Microsoft Teams Room Solutions

Extreme flexibility and hybrid work define the post-pandemic workplace.

This new era of hybrid work isn't as simple as combining the old reality of the workplace with the new reality of remote work. Hybrid Meetings builds on the new wave of digital transformation and cloud power, and drives new ways to work and be together, to coordinate and collaborate, and to build a modern workplace that is as flexible and adaptive as possible - one that produces both happier people and better projects.

Work continues to evolve, and business leaders are looking for a new operating model, defined by flexibility. To succeed, organizations need to focus on three things: putting the right policies in place, reconfiguring physical spaces, and using technology to put it all together.

Technology is the binding factor to create inclusive meeting and collaboration experiences using Teams meetings, Microsoft Teams Rooms, and devices.

Logitech Room Solutions for Microsoft Teams

ROOM SOLUTIONS FOR MICROSOFT TEAMS		
SMALL ROOMS	MEDIUM ROOMS	LARGE ROOMS
 <p>Designed for focus rooms and smaller conference rooms, the small configuration minimizes cabling and saves space with Logitech MeetUp, a marvel of miniaturization that mounts neatly above or below a display. Place Logitech Tap on the table, or add a wall mount to save even more space.</p>	 <p>As rooms get bigger, tables grow longer and people sit farther from the camera. That's why the medium configuration features Logitech Rally, a premium conferencecam that pairs an advanced ultra-HD camera with modular audio that scales to support a wide range of room sizes and layouts.</p>	 <p>The large configuration upgrades to Rally Plus with two speakers for clear audio throughout the room. Dual mic pods expand coverage for up to 16 people, and the system supports up to 7 mic pods for rooms with up to 46 seats.</p>
