Quick Visitors Badges

Say goodbye to handwritten badges. Print your visitors' badges without any hassles

Top Feature:

- Identify unauthorized visitors in a jiffy
- Badges allotted for a single visitor or a group
- Design your badge as per your brand colors
- Create badges automatically when a premises visit is scheduled
- Capture all the desired information of the visitors (name, contact details, picture, date, time and purpose of the visit, etc.)

Secure Visitors Records

Capture and store all information in secure storage with all compliances

Top Feature:

- Foolproof record of information in case of emergencies
- Role-based access permissions to the visitor's data
- Detailed logs of visitor information are captured
- Visitors cannot access each other's details
- Compliant with GDPR, PCI, and others

On-time Automatic Notification Alerts

Be notified when the visitors arrive, automatically with the help of our intelligent notification engine. Send out notifications to your employees in real-time

Top Feature:

- Notification messages are fully customizable
- Configure various notification methods as per your requirements
- Choose to display visitors pictures in host notifications
- Share the required information about the visitors without using any external messaging software, call, or handwritten note
