Mixed Reality as a Service

What we offer

Rent a secure and fully managed Microsoft HoloLens, for testing proof of concepts and pilots.

Prove the case in a dedicated NNIT customer environment before scaling to your enterprise environment.

Add advisory services on top to build and present business cases ready for management.

Our value proposition

NNIT is an end-to-end service provider covering the value chain from procurement of devices, configuration of devices, scaling to enterprise, training of users to daily support operations.

We are experts in getting your infrastructure ready in highly regulated industries and growing your proof of concepts to enterprise enabling your organization to reap the benefits of Mixed Reality.
